

Water-based degreaser

DGR

- DGR is a water-based cleaner. Can be used to remove dirt, dust, swarf and to degrease all kinds of surfaces such as old paint layers, transport primer, other primers, metal (steel, aluminium and galvanized pieces) and plastic.
- To remove residues of tar or glue, we recommend to use a solvent-based degreaser, or use DGR in combination with SBR, but for all other pollution (fly, dirt, sanding dust, fat, finger prints, swarf, ...) this water-based cleaner offers a lot of advantages compared with solvent-based cleaners:

Code	Description	Box	Pal
DGR 05	waterbased degreaser 5L	1	96
DGR 200	waterbased degreaser 200L	1	2
DGR 25	waterbased degreaser 25L	1	28
