Who we are...

Our Background

Formed by Rob Mills, Crosslink was established to support the needs of the bus, truck and rail industry together with the automotive glass replacement market. Since 2011, we have expanded into wider industrial markets including marine and construction.

Crosslink's niche value of experience in adhesives, sealants, coatings and associated products for joining and providing long-term protection to vehicle substrates, is well appreciated by our valued customers.

Crosslink also acts as agents and distributors for a range of equipment producers who are aligned with the markets we serve.

Crosslink, a truly British concern, is located within the heart of the Midlands, therefore being well placed to reach customers nationwide and offer fast and immediate support to our customers groups. As our team has evolved so to have our products, we are now able to distribute internationally across all sectors.

Our founder Rob Mills, next his wife,

Maxine, Financial director.

Our Values

Crosslink Solutions provides valuable sales support for like minded premium brands, who are associated within the Automotive & Mass Transportation and General Industrial Markets. Serving those valued customers with over twenty years of experience with adhesives, sealants, coatings, and associated systems.

As specialists in Automotive, Bus, Truck & Rail assembly and aftermarkets, Crosslink supports distribution and large direct-to-market customers, with product selection, training and certification. We are also pleased to offer consultation services for the UK Rail industry.

Crosslink is a relatively young organisation (formed in 2011) but already we have been featured in the parliamentary review 2019. We pride ourselves on keeping abreast of new developments and innovations which shape the industries we serve and add value to our customer's daily activities.

As a family-run business, Crosslink is high in integrity, ethical in nature and discreet in business relations, and as such are proud to work closely with key partners to best serve their needs.

One of our highlights of the calendar year is seeing new and familiar faces at our exhibition stands, pictured left.

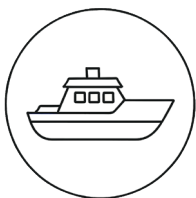

Catalogue Guide

Look out for our industry guide under all products, this indicates which industry the item would be suitable for!

Most of our products are used across multiple industries so if you don't see yours there, don't worry we can send samples out to you to test product suitability!

Also a few of our products have some impressive features which are highlighted using the icons below

EN45545 approved.

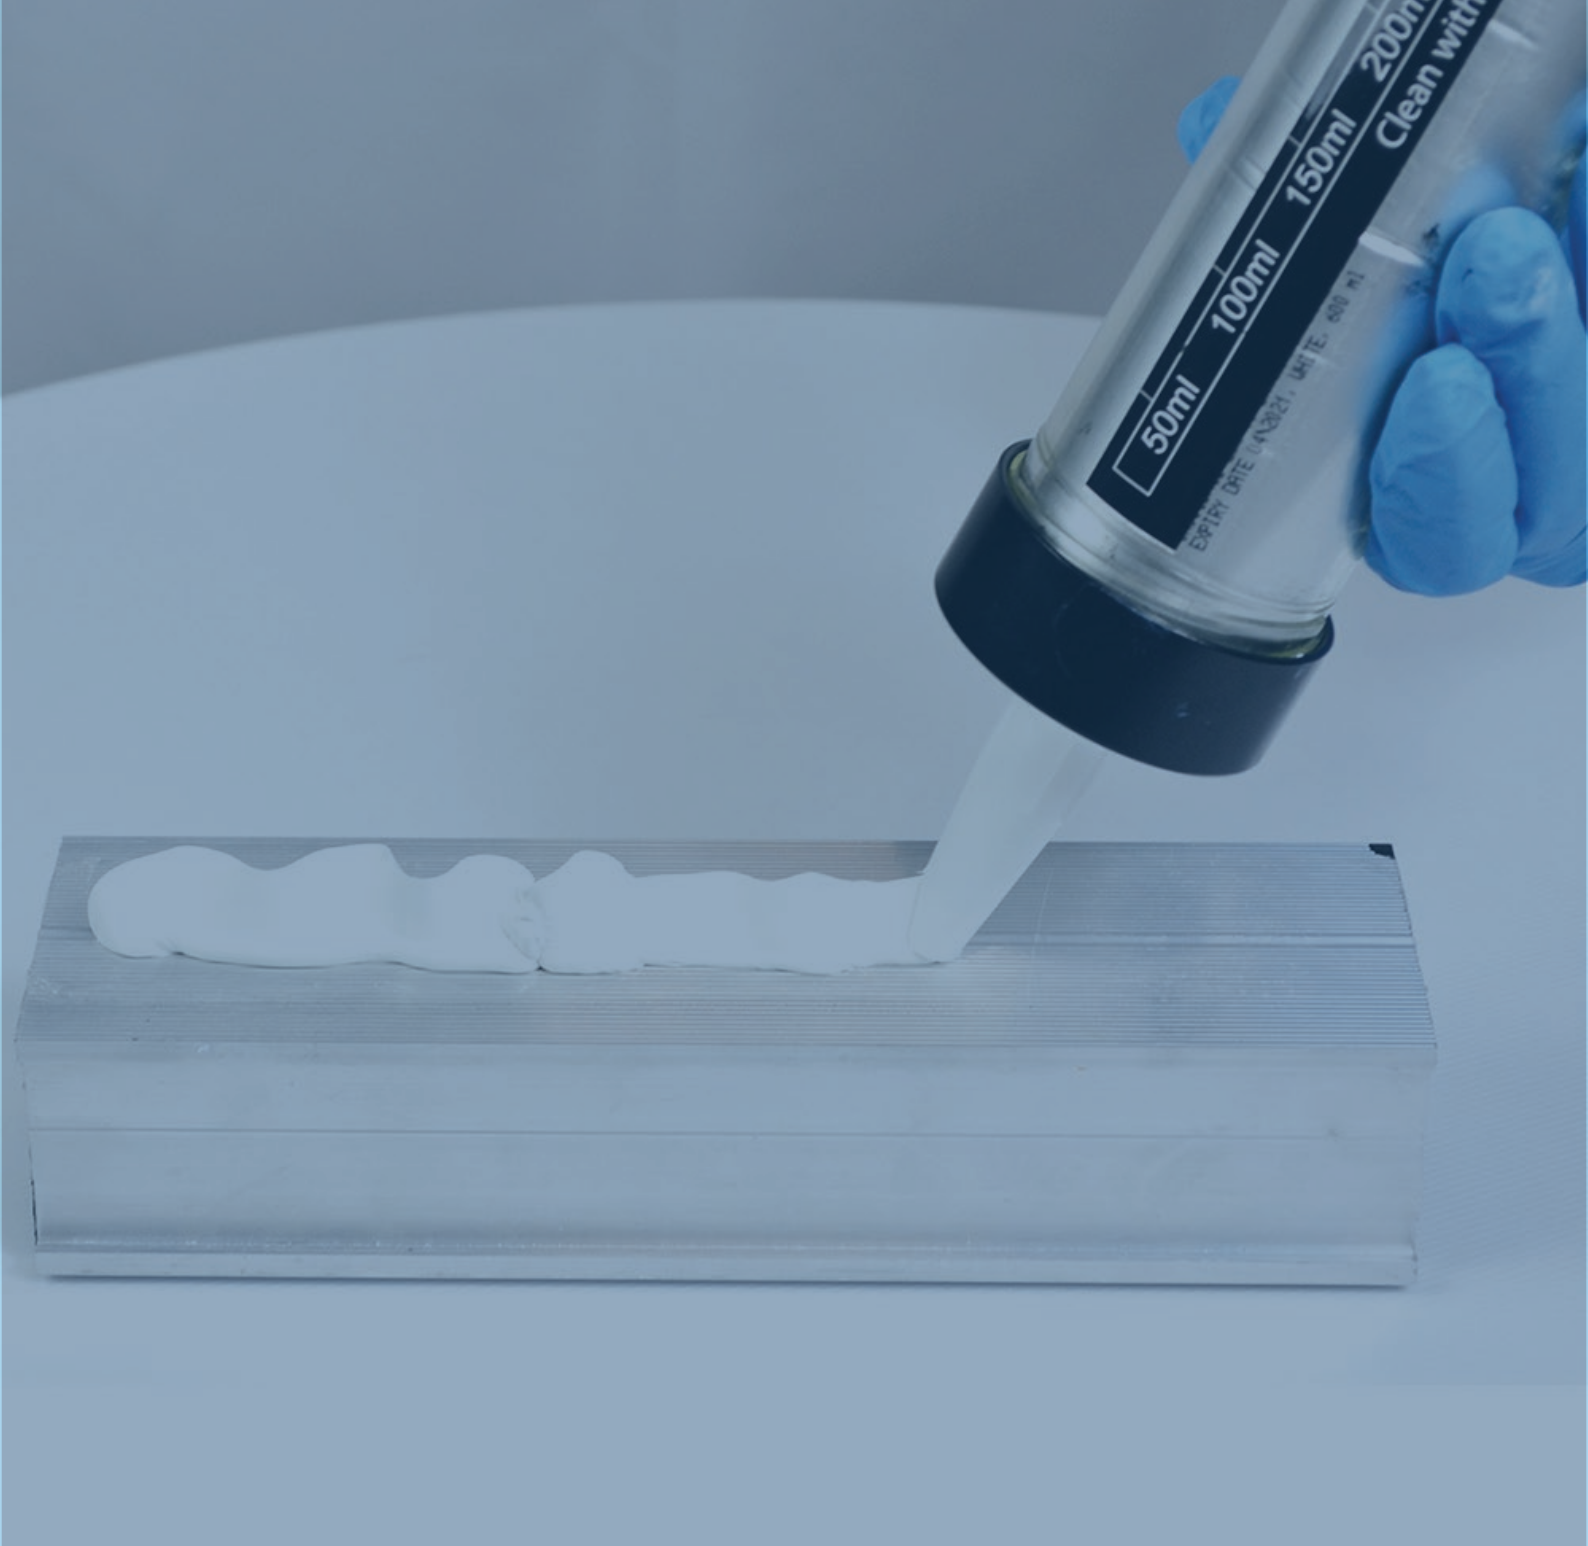

Fire, Smoke & Toxic Fume standard for Rail

ECO friendly

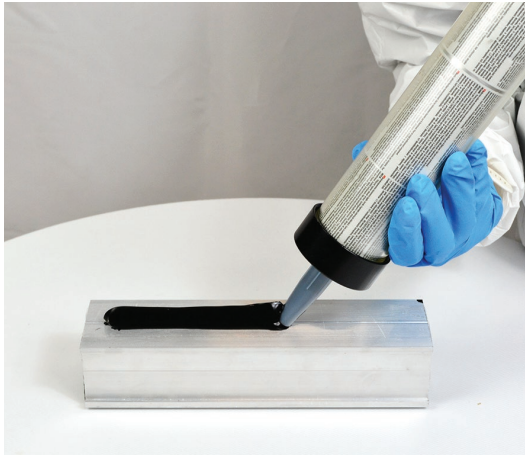

Either: Water-based, solvent-free or recyclable textile.

At Crosslink, we pride ourselves in offering a bespoke service to our customer so should you require any items not listed in this brochure please give us a call and we will assist you with your specific needs.

Adhesives & Sealants

Crossbond 70

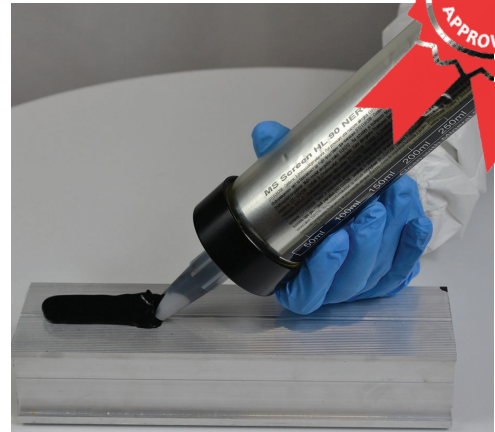

Solvent & isocyanate free, primerless to glass one-part SMP-Advanced elastic adhesive

- MP-Advanced: ultimate mechanical performances Silyl-Modified Polymer.
- Solvent and isocyanate free, odourless.
- Outstanding thixotropy, non-sagging, short cut-off string.
- High green strength: instant grab and load bearing capacity.
- High mechanical and dynamic stress resistance.
- Shock and impact resistance.
- Vibration and sound damping properties.
- Increase torsional stiffness of final assembly.
- Permanently flexible over a wide range of temperatures.
- No bubble formation.
- Excellent primerless adhesion on all typical industrial materials and substrates.
- Non-staining. Neutral behavior, does not attack support surface.
- No Hazard symbol required.
- Over-paintable with many water and solvent based paints (preliminary tests recommended).

CLS Code	Colour	Pack Size
CLS 255	Black	600ml Sausage

Crossbond HL90

Primerless glass bonding & panel adhesive.

- New Primer-less formulation.
- Solvent and isocyanates free.
- Excellent resistance to ageing and UV stable.
- Long working time for Bus, Truck and Rail applications.
- Rapid curing: bonding parts can be handled a few hours after assembly.
- Excellent primer-less adhesion on glass and on a wide range of materials commonly used in vehicle assembly.
- Adds structural integrity to vehicle structure.
- Flexible at low (-40°C) and high (+120°C) temperatures.
- Non-conductive formulation.
- Designed for Polycarbonate, carbon fibre, Perspex and Ballistic glass applications.

CLS Code	Colour	Pack Size
CLS 225	Black	600ml Sausage
CLS 246	Black	290ml Cartridge
CLS 243	Black	Glazing Kit (See pg 6)

Crossbond HL90 Glazing Kit

Each Kit Contains

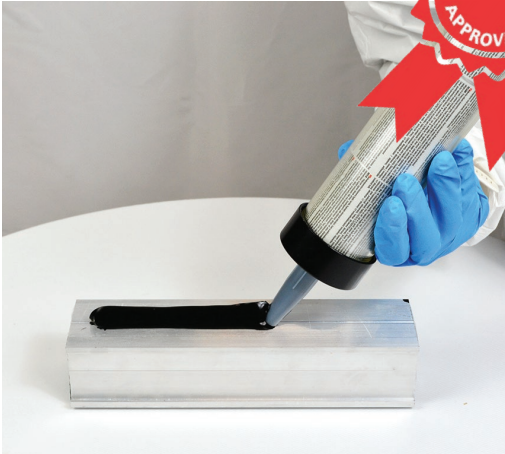

- 1 x 600ml HL90
- 1 x 30ml Crossbond All-in-One Primer
- 2 x felt applicators
- 1 pair of nitrile gloves
- 1 x uncut nozzle
- 1 x precut nozzle

CLS Code	Colour	Pack Size
CLS 243	Black	Kit-600ml Sausage

Crossbond HL90 in a window application.

Techno FR

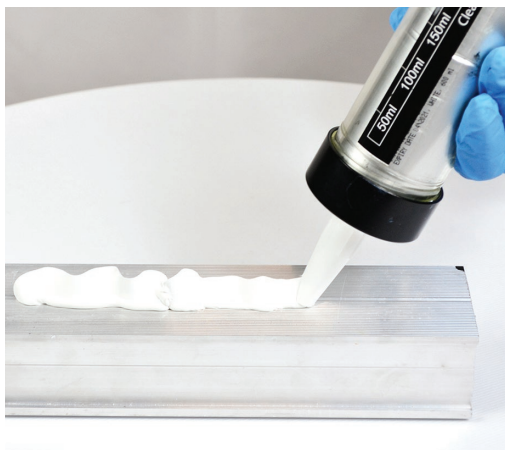

A high strength elastic fire retardant adhesive which is flexible in very low and high temperatures.

- Universal sealer adhesive approved for Fire, smoke and toxic fume to EN 45545.
- Primer-less formulation.
- Solvent and isocyanates free.
- Excellent resistance to ageing and UV stable.
- High cohesion and excellent adhesion to a variety of surfaces.
- Ideal for elastomeric joints.
- High filling power.
- Solvents and isocyanates free .
- Virtually no shrinkage.
- Flexible at low (–40°C) and high (+ 100°C) temperatures.
- Neutral, odourless reaction.
- Low flame spread. MED certified by LAPI .
- Compatible with many painting systems .

CLS Code	Colour	Pack Size
CLS 227	Black	600ml Sausage
CLS 236	Grey	600ml Sausage
CLS 240	White	290ml Cartridges

Crossbrid 57UHT

A UV white primer-less adhesive with excellent sealing properties

- High strength with elongation
- Excellent working and fixture time performance
- High heat resistant
- Primer-less to a range of dissimilar substrates
- UV stable with good sealing properties
- Cold extrudability
- No print or read through
- High gap filling properties
- Free from Isocyanates, & solvents
- Odourless

CLS Code	Colour	Pack Size
CLS 205	White	600ml Sausage

**Crossbond 30 HMNC**

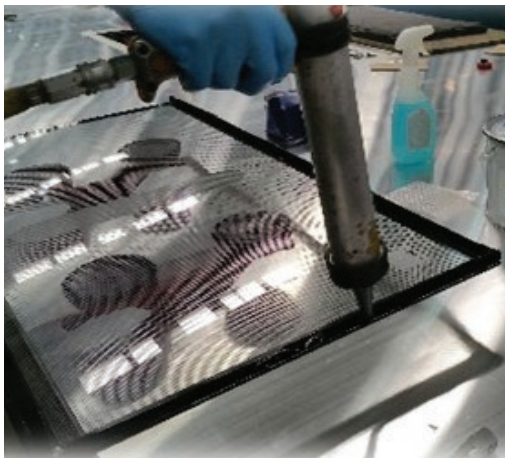

30 minute drive away time, High modulus, non conductive. Direct glazing adhesive.

- Solvent free, odourless
- Fast curing
- Suitable for cold and warm application
- Outstanding thixotropy, high decking, non-sagging
- High viscosity, high green strength
- High Modulus - maintains torsional rigidity and increases the vehicles NVH values
- Capable of withstanding high dynamic stresses
- Non-conductive, low volume resistivity
- Suitable for use with integral aerals
- Prevents contact corrosion in aluminum-body vehicles
- Compliant to Federal Motor Vehicle Safety Standard 208/212

CLS Code	Colour	Pack Size
CLS 1448	Black	600ml Sausage

Crossbond AS

Primerless adhesive designed for automotive, bus and truck glazing installation.

- Solvent free, odourless
- Fast curing
- Suitable for cold and warm application
- Outstanding thixotropy, high decking, non-sagging
- Suitable for bonding and gap filling Ideal product for glass replacement on commercial vehicles
- Exhibits good durability and is compatible with the All Black installation process
- Good resistance to weathering

CLS Code	Colour	Pack Size
CLS 1448	Black	600ml Sausage

Pack size

Not seeing the pack size you require?

We are able to do our adhesives in sausages, 20Ltr pails and 208Ltr drums.

Please feel free to contact a member of our team with estimated usage and we will be able to quote accordingly.

Crossbond 30E

A glass bonding & panel adhesive.

- One-component Polyurethane technology.
- Suitable for cold application High viscosity – high initial tack and non-sag properties.
- High initial bond strength, high modulus, fast positioning at 1h.
- Low temperature fast fixation.
- Primer-free adhesion to OEM paint systems and Glass (subject to adhesion trials).
- Good weather resistance, good creep resistance, good durability.

CLS Code	Colour	Pack Size
CLS 1383	Black	600ml Sausage

Crossflex Crystal

Primerless Crystal Clear adhesive

- Crystal clear.
- Excellent resistance to ageing, weathering; colour stable, non-yellowing and non-chalking.
- Environmentally friendly – Free of isocyanates and solvents. No hazard symbol required.
- No bubble formation - Odourless.
- Bonds and seals at the same time. Permanently elastic.
- Exceptional thixotropy, non-sagging, short cut off string, even on porous materials such as concrete.
- No change in volume, no shrinkage.
- Good primerless adhesion on all typical construction and industrial materials.

CLS Code	Colour	Pack Size
CLS 1447	Crystal clear	310ml cartridge

Crossbond 54

1 Hour drive away time, glass bonding & panel adhesive.

- One-component Polyurethane technology.
- Suitable for cold application High viscosity – high initial tack and non-sag properties.
- Short cut-off string providing no tailing.
- Prevents galvanic contact corrosion.
- High UV resistance and colour stability.
- Ideal for both bonding and gap filling.
- Simple bonding with the CROSSPRIME all in one primer.

CLS Code	Colour	Pack Size
CLS 253	Black	600ml Sausage. (also available 400ml)

Crossbond 62

30 minute drive away time, glass bonding & panel adhesive.

- One-component polyurethane.
- Solvent free, odourless.
- Fast curing.
- Suitable for cold and warm application.
- Outstanding thixotropy, high decking, non-sagging.
- High viscosity, high green strength.
- High Modulus - maintains torsional rigidity and increases the vehicles NVH values.
- Capable of withstanding high dynamic stresses.
- Suitable for use with integral aerials.

CLS Code	Colour	Pack Size
CLS 252	Black	400ml Sausage. (also available 600ml)

SiMP 2K FAST

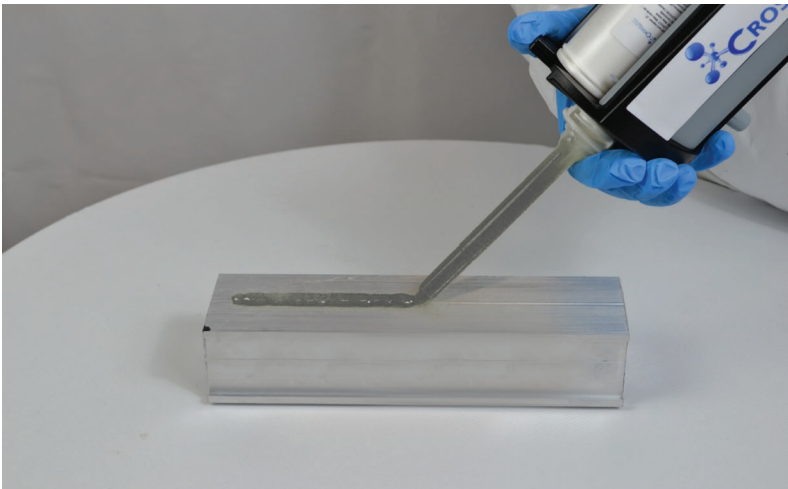

Flexible semi-structural bonding adhesive for a wide range of materials.

- Fast strength build-up, handling strength achieved after 60', functional strength in 3,5h
- Primerless
- Simple processing
- Does not sag or run.
- Very wide primerless adhesion range
- Suitable for general purpose bonding
- Neutral behaviour, does not attack support surfaces
- High mechanical and dynamic stress resistance
- Impact and vibration resistant (shock absorbing)
- Spot weldable before curing
- May be sanded and overpainted
- Solvent free, odourless

Can bond to:

- Metals
- Powder-coated metals
- Varnished metals
- Galvanized metals
- Anodized metals
- Chromed or hot zinc dipped surfaces
- Various plastics
- Ceramics
- Stone
- Concrete
- Wood

CLS Code & Name	Colour	Working time	Pack Size
CLS 1380	Grey	60 minutes	400ml Cartridge

ACRALOCK®

Acralock Structural Adhesives are capable of bonding a wide range of materials either to themselves or cross bonded to a dissimilar substrate, with little to no preparation. Our unique formulations are designed to provide very tough and durable bonds with high shear strength and elongation properties.

This makes Acralock adhesives the best choice for applications that need to withstand harsh environmental and shock load conditions. The rapid cure nature of these adhesives at room temperature substantially decreases the assembly process time and increase production performance.

Acralock Structural Adhesives Overview:

- Chemically bond to material surface
- Combine high bond strength with choice of stiffness or flexibility
- Bond most materials without grinding or priming
- Include primerless metal bonding
- Bond Telene and Hot Dipped Galvanized Steel
- Combine fast cure with a choice of working time from 5 to 120 min
- Give LOW Exotherm/LOW shrink/LESS read through
- Marine certified and EN 45545-2 approved

Acralock Structural Adhesives bond :

- | | | | |
|-----------------|--------------------|-------------|--------------------------|
| • Polyesters | • Acrylics | • Poly DCPD | • Aluminum |
| • Gelcoats | • ABS | • SMC/BMC | • Stainless Steel |
| • Topcoats | • PVC/FPVC/CPVC | • PU - Rim | • Carbon Steel |
| • Vinyl Esters | • Styrenics | • PA – RIM | • Coated Metals |
| • Epoxies | • PET | • Nylon | • Hot Dipped Galv. Steel |
| • Polyurethanes | • PMMA | • Rubbers | • E - Galvanized Metals |
| • Elastomers | • Polycarbonate | • Wood | • Ceramics |
| • Floatglas | • Coated Floatglas | • Concrete | • Natural Stones |

And many others..

Acralock Structural Adhesives are available in a wide range of strength and elongation (flexibility) options therefore we can work with your engineering requirements to suit your particular application. Depending on the product family, their basic properties are as follows:

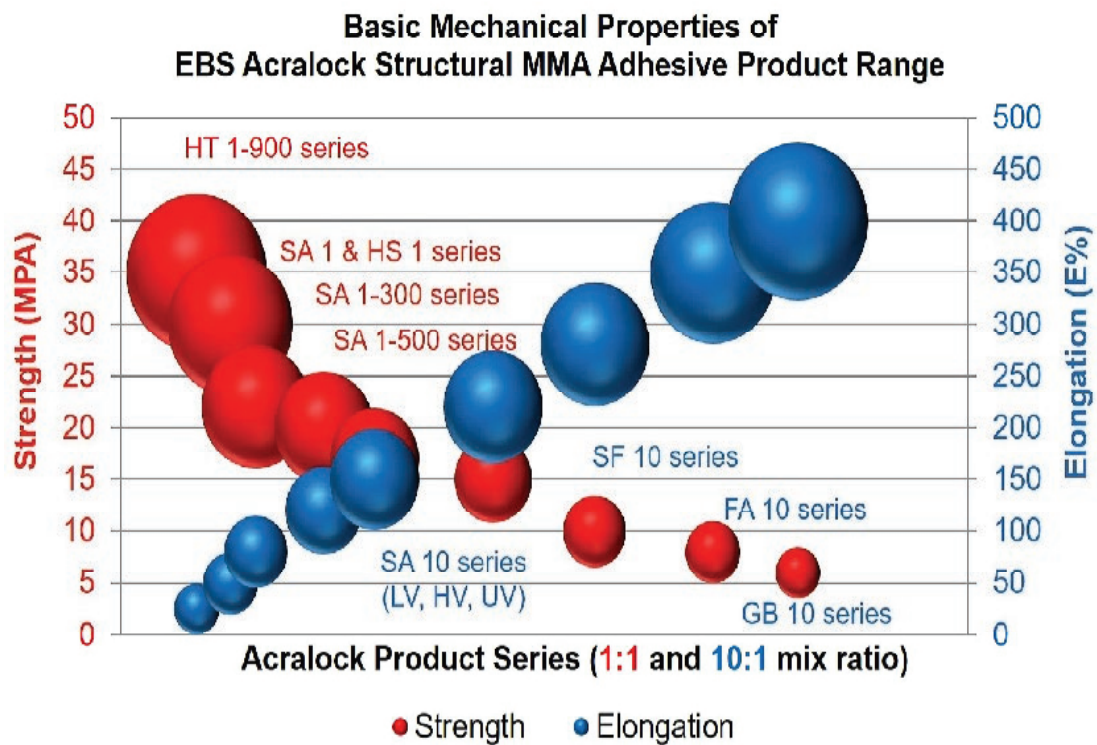

High Flexibility (400 % E) / Low Strength (< 6 MPA)

A substitute for flexible 2 component Polyurethane systems

Medium Flexibility (100 - 250 % E) / Medium Strength (10 - 20 MPA)

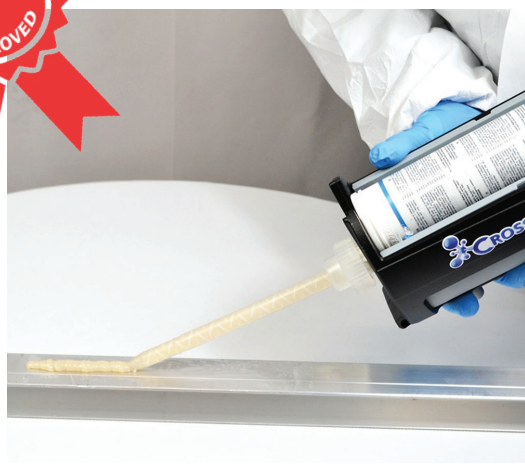

A substitute for 2 component Polyurethane systems and classic MMA systems

Low Flexibility (30 - 80 % E) / High Strength (20 - 35 MPA)

ACRALOCK SA1

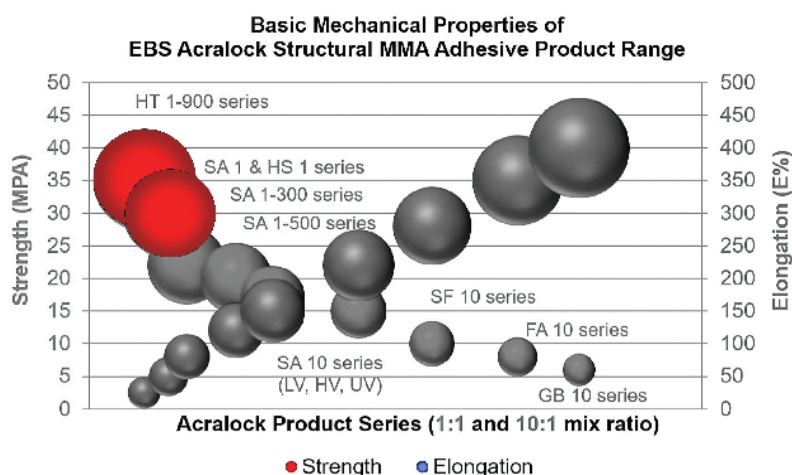

A primer-less 1:1 structural adhesive, very high strength and low elongation. Perfect for stationary parts and substrates.

Structural bonding for load restraining systems with or without mechanical fixings.

- Approved to EN45545 fire, smoke & fume performance
- 1:1 structural bonding adhesive with rubber toughness
- Variable working & fixture time options.
- Bonds wide variety of substrates.
- Primer-less metal bonding.
- Low Exotherm reaction.
- Gap fill 0.1 to >5mm.
- Excellent fatigue characteristics and shock load resistance
- Permanent toughness and elasticity

ACRALOCK HS1

A primer-less 1:1 structural adhesive, very high strength and low elongation. Perfect for stationary parts and substrates.

Using SA1 A Component

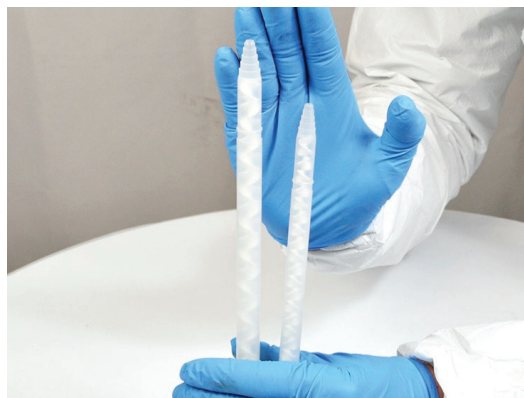

- 1:1 structural bonding adhesive with rubber toughness.
- Low gap fill
- Telene bonding.
- High Strength, low viscosity.

ACRALOCK SA10

A primer-less 10:1 structural adhesive. Available in 3 different series; HV, LV and UV.

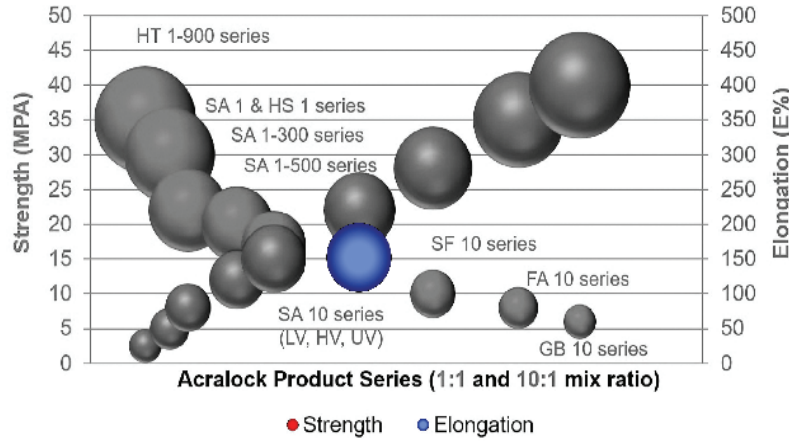

- 10:1 structural bonding adhesive with rubber toughness
- Variable working & fixture time options.
- Bonds wide variety of substrates.
- Primer-less metal bonding.
- EN45545 and Rina Approved.
- Low Exotherm reaction.
- Good environmental/Chemical resistance.
- Permanent toughness and elasticity.
- No sagging.
- HV- High Elongation. Gap fill 0.5mm-50mm.
- LV- Medium Elongation. Gap fill 0.5mm-12mm.
- UV- medium elongation UV stable colour. Gap fill 0.5mm-15mm.

ACRALOCK SF10

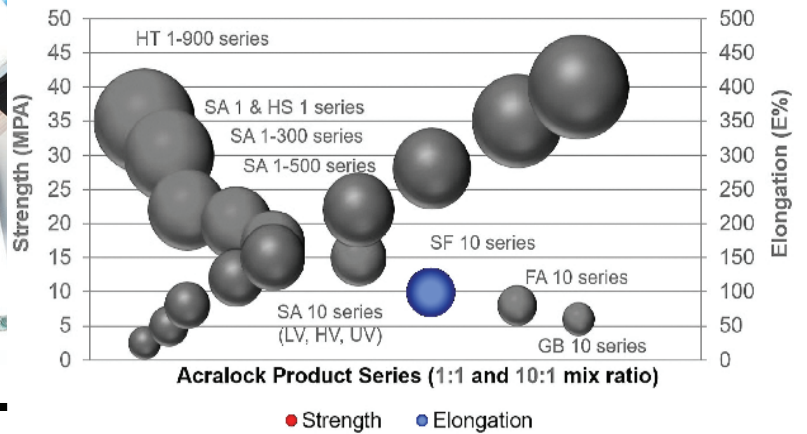

A primer-less, 10:1 structural adhesive. Medium Shear strength with excellent toughness and high elongation.

- 10:1 structural bonding adhesive with rubber toughness
- Variable working & fixture time options.
- Bonds wide variety of substrates.
- High Elongation.
- Low Exotherm reaction.
- Good environmental/Chemical resistance.
- Permanent toughness and elasticity.
- No sagging.
- Gap fill 0.5mm-15mm.

ACRALOCK FA10

A primer-less 10:1 structural adhesive, high elongation of break and medium strength. Fantastic for moving parts and substrates.

- Very High Elongation
- Low Exotherm adhesives
- Gap fill 0.5 to 15 mm
- Good Environmental / Chemical Resistance
- Permanent toughness and elasticity
- No sagging
- Non critical mix ratio
- Stable formulations
- Durable bond performance in harsh environments
- Excellent fatigue characteristics and shock load resistance
- Vertical surface and overhead applications possible

ACRALOCK GB10

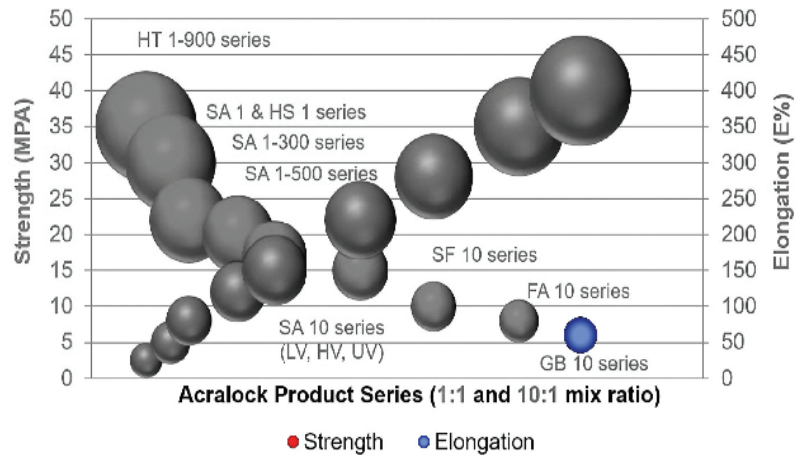

A primer-less, 10:1 structural adhesive. Low Shear strength with excellent toughness and high elongation.

- 10:1 structural bonding adhesive with rubber toughness
- Variable working & fixture time options.
- Bonds wide variety of substrates.
- High Elongation, Low modulus.
- Low Exotherm reaction.
- Good environmental/Chemical resistance.
- Permanent toughness and elasticity.
- No sagging.
- Gap fill 0.5mm-15mm.
- Reduced read/print-through.

GB10-15 in application. Always wear Nitrile Gloves (pg 46) when using this product!

Crossflex

A range of high performance sealants with excellent elastomeric properties

- Primer-less adhesion to a range of dissimilar substrates.
- Cold extrudability.
- Good working time functionality.
- Over paint-able.
- High to low gap filling properties.
- UV resistant .
- Non-isocyanate version available.
- Excellent elongation at break.
- Little to no shrinkage .
- Fast curing performance.
- Available in 600ml sausages.
- Available in white, light grey, dark grey & black.
- Also available in a fire-retardant format for specific applications.

CLS Code	Colour	Pack Size
CLS 235	White	600ml Sausage
CLS 207	Light Grey	600ml Sausage
CLS 243	Black	600ml Sausage

Crossflex in application.

Dispensers

For all dispensers see page 97 .

Crossprime All-In-One

Black primer specifically designed for the ceramic band on vehicle glass.

- Ensures the complete protection of the adhesive by creating a barrier against harmful UV rays.
- Contains adhesion promoters.
- Improves sealant adhesion on Glass, ceramic coated glass, various plastics & a wide range of metals.

Alongside other Crosslink products, Crossprime All-In-One is used in windscreen replacement. See Right.

Wipes

Bond-Wipes

Chemically active, heavy duty cleaning & surface tension changing wipes in cans and refill pouches

- Robust cleaning preparation system.
- Designed to positively change surface tension in preparation for bonding & sealing.
- Lint free and non-abrasive.
- Eliminates liquid solvent VOC's.
- Effective in all conditions.
- Monitor-able in use.
- Ability to be used down at < -15°C .
- Highly effective and cost efficient.
- Available in 150 wipes canisters & economic refills.

CLS Code	Pack Size
CLS 470	Can
CLS 471	Refill pouch
CLS 498	Ready to use packs of 50pcs

Bond-Wipes in windscreen application.

Bond-Wipe Maxi's

Developed for cleaning and pre-treating in surface conditioning applications on range of substrates prior to bonding, sealing or painting

- Robust cleaning preparation system .
- Designed to positively change surface tension in preparation for bonding & sealing.
- Lint free, anti-static and non-abrasive.
- Eliminates liquid solvent VOC's.
- Effective in all conditions.
- Monitor-able in use.
- Used for general cleaning purposes as well as highly contaminated substrates.
- Highly effective and cost efficient.
- Available in larger wipes.

CLS Code	Pack Size
CLS 478	Can
CLS 479	Refill pouch
CLS 487	1Ltr Fluid

Bond-Wipe Eco

Developed using a new Bamboo textile.

- Same initial design as our original Bond-Wipes but now with a biodegradable textile.
- Lint free, anti-static and non-abrasive.
- Eliminates liquid solvent VOC's.
- Effective in all conditions.
- Monitor-able in use.
- Used for general cleaning purposes as well as highly contaminated substrates.
- Highly effective and cost efficient.

CLS Code	Pack Size
CLS 1392	Can
CLS 1393	Refill pouch

Prep-Wipe Enviro

Water-based and lintfree, with a long flash-off time perfect for large panel degreasing.

- Lint free, anti-static and non-abrasive.
- Tested on high solid and water based paint systems.
- Long flash-off time for large panel degreasing.
- Available in 150 water-based Wipes.
- Reduction in flammable storage & VOC risk assessments.

CLS Code	Pack Size
CLS 480	Tub
CLS 481	Refill pouch
CLS 454	Ready to use Pouch of 10pcs

Prep-Wipe Anti Bac

Effectively kill bacteria on surfaces.

- Anti-Bacterial wipes.
- Highly effective and cost efficient.
- Available in tub, refill and kits.
- 130pcs per tub/refill.

CLS Code	Pack Size
CLS 458	Tub
CLS 459	Refill pouch
CLS 482	Kit: 2 Tubs + 4 Refill pouches

Epoxi Clean

Developed for removing uncured or partially cured Epoxies, PU's and other adhesives from surfaces and panels.

- Remove heavy contaminants from a range of substrates.
- Contaminate collecting textile, which is lint free and with non-abrasive properties.
- Available in 125 Wipes.
- Designed to remove uncured or partially cured epoxies, PU's and other adhesives.
- Available in reusable Cans and Refills, to reduce waste and save money.

CLS Code	Pack Size
CLS 493	Tub
CLS 494	Refill pouch

Prep-Wipe Dry

The perfect all round dry wipe.

- Solvent compatible.
- Anti-static perforated cross weave textile.
- Lint free and totally non abrasive.
- Available in a sealed dispenser box of 400pcs.

CLS Code	Pack Size
CLS 488	Dispenser Box

HandClenz

Specialist Hand cleaning wipes
for the removal of adhesives,
sealants and coatings

- Scrub: For agitation of heavy stubborn in-pore deposits.
- Smooth: For light contaminate removal.
- In-soap formula: Breaks down heavy soil deposits, with built-in barrier foam conditioner & anti-bacterial properties.
- Chemically designed: For hands.
- For safe removal of: Glass bonding & other adhesives, paints, foams, resins, oils, grease & other heavy to remove contaminants. 'Smooth Scrub' cleans without skin roughness or irritation.
- Available in tubs and economic refill pouches.

PPE

Finixa CSO**Disposable Overalls**

- Material: 50% PP / 50% PE (63g/m²)
- Anti-static treatment
- 3 piece hood, External stitched seams, Zipper with storm flap
- Elastic cuffs, ankles and waist
- In conformity with the PPE Regulation (EU) 2016/425

Finixa TSO**Disposable Overalls**

- Material: Tyvek® 1431 N, 41 g/m²
- 3 piece hood
- External stitched seams, Tyvek®
- Zipper with storm flap
- Elastic cuffs, ankles and waist
- In conformity with the PPE Regulation (EU) 2016/425

Standard Coverall**Disposable Overalls**

- Microporous material
- Excellent liquid and particulate barrier protection
- Low linting construction for minimal contamination
- Anti-static
- Elasticated hood, ankles, cuffs and waist
- CE-CAT III

PP Coverall**Disposable Overalls**

- Material: 100% Polypropylene 40g
- Lightweight and comfortable
- Elasticated hood, ankles, cuffs and waist
- Front zip opening for easy access

Finixa PHO

- The front is a Teflon-treated polyester fibre that protects against paint penetration.
- The back is completely made of multi dry woven material. Multi dry absorbs all the perspiration of the body.
- The overall has two large side pockets and one breast pocket. Shoe protection.
- Centred waist band for comfort.
- Washable at 30 °C, up to 10 times.

Finixa NSC/WSC

- Ultra-light economical polyester overall 190gr material.
- Reusable and washable spray overall with hood.
- Polyester 'breathes' and is therefore more comfortable to wear.
- Polyester is anti-static and therefore attracts less dust.
- Available Navy and White.

Finixa SOG

Optional Knee Pads

- Material: Polyester.
- With hood and breast pocket.
- New design of sleeves insert for optimal arm movement.
- Air ventilation on back, armpit and crotch.
- Cord cuffs at the wrists and ankles.

Finixa Knee Pads

- Knee Pads for Finixa SOG Overall.
- Can be placed at different heights in the kneepad pocket.
- Always in place – high sides prevent the knee from sliding off the kneepad.
- One size.
- Material: 100% polyethylene.

Finixa TCC Coat

- Material: Teflon. Polyester fabric, woven with 2% carbon fibre.
- Permanent anti-static, original Dupont Teflon coated.
- 1 chest pocket, 2 side pockets.
- Plastic press buttons, cord cuffs at the wrist. 2-way zipper covered / velcro closing.
- Washable, breathable.

Finixa TCO Overall

- Material: Teflon. Polyester fabric, woven with 2% carbon fibre. Permanent anti-static, original Dupont Teflon coated.
- Air ventilation slot at the back and under the arms.
- Integrated hood, 2 chest pockets, 2 side pockets, 1 back pocket.
- Plastic press buttons, cord cuffs at the wrist.

Finixa TPJ

Jacket

- Material: 100%Polyester
- Silicone-free, lint-free
- PPE CAT. I
- Breathable
- Hood with cord cuff, elastics at ankle, wrist and waist

Finixa TPP

Trousers

- Material: 100%Polyester
- Silicone-free, lint-free
- PPE CAT. I
- Breathable with 2 side pockets
- Knee pockets for separate available kneepad SOGK 02

Dust Mask P2

- Safety class FFP2.
- Lightweight structure for easy breathing and comfortable wear
- Advanced low resistant exhalation valve reduces hot air build-up.
- Latex-free material to avoid irritation
- In conformity with the PPE Regulation (EU) 2016/425
- Pack of 15pcs

Spray Mask A1,P2

- Conform to (EU) 2016/425
- Exchangeable gas filtering cartridge MAS 06
- Exchangeable dust filtering cartridge MAS 05
- Exchangeable protection caps MAS 09
- Adjustable head and neck band

Spray mask A2, P3

- Comfortable silicone rubber half mask (high quality).
- Fits tight around the face. Adjustable head and neck band
- In conformity with the PPE Regulation (EU) 2016/42
- Exchangeable gas/dust cartridge MAS 03

Filters

MAS 03

MAS 05

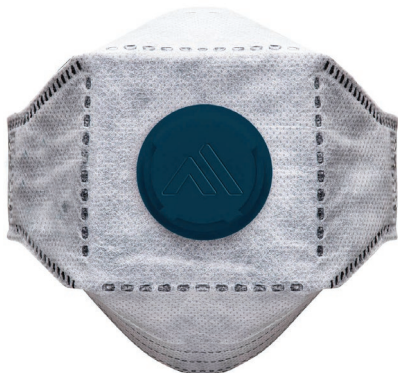

MAS 06

- MAS 03 - Dust & gas filtering cartridge A2, P3 for spray mask - 2p.
- MAS 05 - Dust filtering cartridge P2 for spray mask - 10p
- MAS 06 - Gas filtering cartridge A1 for spray mask - 2p.

FFP2 Carbon Mask

- Activated carbon layer for improved absorption of nuisance odours, organic vapours and welding fumes
- CE certified CE-CAT III
- Adjustable nose bar for improved fit and reduced fogging of glasses
- Foam padding around the nose bridge for additional comfort

FFP3 Reusable Compact Mask

- Soft nose bridge for a secure and comfortable fit
- 100% Metal Free
- Internal foam gasket ensures a tight face seal
- Reusable for more than one working shift
- Non-magnetic - nickel and ferrous free
- CE certified CE-CAT III. FFP3

ABEK1P3 Half Mask Kit

- Kit: one medium P410 half mask and two P970 filters
- CE certified CE-CAT III
- Ultra lightweight for long uses
- High performance exhalation valve to reduce heat and provide comfort when used in hot and humid conditions

Filter Cartridges

- Anti-gas (Class1) and anti-particles filters (Class 3).
- This product is sold in pairs
- Screw-in connection
- Lightweight and comfortable
- CE certified CE-CAT III

Nitrile Disposable Gloves

GCN

- Disposable nitrile gloves are 3 times stronger than latex or vinyl.
- No sweaty hands as compared to vinyl and latex.
- PPE Regulation (EU) 2016/42
- Packed per 100 pieces in a box
- Thickness 0.14mm +/- 0.01mm. Glove length: 240mm +/-10mm

Long Cuff Nitrile Gloves

GLB

- Disposable nitrile gloves are 3 times stronger than latex or vinyl.
- No sweaty hands as compared to vinyl and latex.
- PPE Regulation (EU) 2016/4
- Packed per 60 pieces in a box
- Thickness 0.15mm +/- 0.01mm. Glove length: 300mm +/-10mm

Premium Disposable Gloves

- Silicone free. Suited for food processing plants and resistant to greases, animal fats and oils
- Acceptable quality limit (AQL) 1.5
- CE certified, CE foodsafe
- Packed per 100 pieces in a box
- Thickness 0.07mm. Glove length: 240mm

Nitrile Powder Free Gloves

- Suited for food processing plants and resistant to greases, animal fats and oils
- Acceptable quality limit (AQL) 1.5
- CE certified, CE foodsafe
- Packed per 100 pieces in a box
- Thickness 0.07mm. Glove length: 240mm

Ketone Resistant Gloves GLQ

- Nitrile rubber glove
- Usage: handling paints, resins, ketones and tool cleaning
- Latex and silicone free
- Glove length: 330mm +/-10mm.
- In conformity with the PPE Regulation (EU) 2016/42

Latex Heavyweight Gauntlet

- Manufactured from genuine natural rubber
- Chemical resistant gauntlet
- Suitable for use in chemical, oil and food industries
- Thickness 1.3mm. Glove length: 600mm
- CE certified

PVA Gloves GLP

- PVA (Polyvinylalcohol) glove with cotton interlock lining.
- Usage: strong organic or chlorinated solvents.
- Latex and silicone free.
- Glove length: 355mm +/-10mm

Chemical resistant Nitrile Gauntlet

- Silicone free. Textured pattern for enhanced grip
- Suitable for use in chemical, oil and food industries. Approved for safe food handling
- Thickness 0.55mm. Glove length: 480mm
- CE certified, CE foodsafe

Cut Resistant D21 Gloves

- Level D cut resistance
- 21 gauge liner uses advanced knitting to create a thin, lightweight, and strong fabric
- Nitrile foam coating for excellent grip in wet and dry conditions
- Reinforced thumb crotch for extra protection and durability
- Protection against contact heat up to 100°C
- Certified to EN388 with 3 washes
- This glove can be used with most mobile touchscreen devices
- CE certified

Impact D18 Gloves

- Level D cut resistance
- 18 gauge liner provides excellent comfort
- CE certified
- OEKO-TEX® STANDARD 100 approved

Assembly Gloves PU GLL

- Ultra-light and comfortable glove.
- Universal use for mechanical jobs, assembly, preparation and spraying.
- Open nylon structure (outside).
- PU coating on a nylon carrier (inside).
- Excellent finger sensitivity.
- Colourfast.
- Prevents sweaty hands.
- Packed per 12 pair.
- In conformity with the PPE Regulation (EU) 2016/42

Wrap Around Safety Glasses

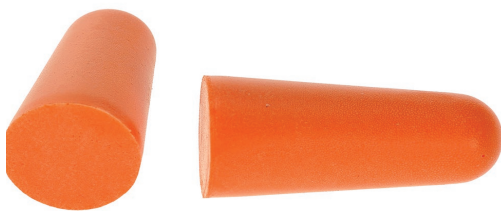

- Single panoramic lens glasses
- Lightweight with excellent side protection
- Flexible arms for ultra comfort
- UV protection
- Anti-scratch coating for added durability
- CE certified

Direct Vent Goggles

- Direct ventilation
- Flexible PVC frame for ultra comfort
- Lightweight and comfortable
- UV protection
- 100% Metal Free

Disposable Ear Plugs

- Disposable ear plugs made from soft PU foam
- Tapered shape for easy insertion and removal
- Supplied in a handy portable dispenser box
- One pair per polybag for hygienic storage
- CE certified, CE-CAT III

Ear Defenders

- Easy to clip-on
- SNR 25dB attenuation level
- Adjustable dual pin system provides multiple positioning for better fit
- CE certified
- CE-CAT III

ElectroStatic Discharge

Electrostatic discharge can be extremely dangerous when working in environments where fire risks are high or where there are sensitive electronic components that can be easily damaged. Our ESD approved range prevents static charge from building up by allowing it to conduct through the fibres to earth.

Composite Mid Boot

- Suitable for use in ESD environments
- Water resistant upper to prevent water penetration
- Back and front pull-tab for ease of getting onto the foot
- Superbly cushioned comfort foot bed reducing foot fatigue
- Reflective trim for increased visibility and safety
- Padded collar for added comfort
- Pierce resistant composite midsole
- 100% non-metallic
- Slip resistant outsole
- Dual density sole unit
- Anti-static footwear
- Oil and water resistant
- Energy absorbing seat region
- Composite toe cap
- CE certified

Long Cuff Nitrile Gloves GLB

- Direct injected mesh with KPU Cage, providing strength and breathability
- 100% non-metallic
- Suitable for use in ESD environments
- Padded collar for added comfort
- Superbly cushioned comfort foot bed reducing foot fatigue
- Composite toe cap
- Energy absorbing seat region
- Anti-static footwear
- Non-magnetic - nickel and ferrous free
- Slip, fuel and oil resistant rubber outsole
- CE certified
- Fuel and oil resistant outsole

Anti-Static Fleece

- Suitable for use in ESD environments
- Tested to EN 61340-5-1
- Middle weight polar fleece with anti-pill finish for added warmth and comfort
- Carbon fibre knitted throughout the fabric provides inherent ESD and Anti-Static properties
- 2 pockets for secure storage
- 2 side zip pockets for secure storage
- Designed with a comfort fit
- CE certified
- A wider variety of sizes has been added to this style to ensure the best fit (S-4XL)
- Available in: Black, Blue, Navy, White & Grey

Anti-Static Polo Shirt

- Suitable for use in ESD environments
- Tested to EN 61340-5-1
- High cotton content for superior comfort
- Designed with a comfort fit
- Lightweight and comfortable
- Concealed stud front for easy access
- Ribbed collar
- CE certified
- Anti-scratch design with no exposed metal parts
- A wider variety of sizes has been added to this style to ensure the best fit (S-XXXL)
- Carbon fibre knitted throughout the fabric provides inherent ESD and Anti-Static properties
- Long Sleeve also available
- Available in: Black, Blue, Navy, White, Grey, Red, Green & Yellow

Anti-Static Trousers

- Suitable for use in ESD environments
- Tested to EN 61340-5-1
- Half elasticated waist for a secure and comfortable fit
- 6 pockets for ample storage
 - 2 Side pockets
 - 2 Back pockets
 - 2 Cargo pockets
- CE certified
- Lightweight for enhanced wearer comfort
- Machine washable at 60°C
- Carbon Fibre woven throughout the fabric provides inherent ESD and Anti-Static properties
- A wider variety of sizes has been added to this style to ensure the best fit (XXS-5XL)
- Available in Black, Blue, Navy and Grey.

Anti-Static Coat

- Suitable for use in ESD environments
- Tested to EN 61340-5-1
- Machine washable at 60°C
- Carbon Fibre woven throughout the fabric provides inherent ESD and Anti-Static properties
- Concealed stud front for easy access
- 3 pockets for ample storage
 - 2 Lower pockets
- Two-tiered chest pocket with pen division
- Lightweight for enhanced wearer comfort
- A wider variety of sizes has been added to this style to ensure the best fit (XXS-5XL)
- Available in Black, White, Blue, Navy and Grey.

Cleaning Solutions

Crossrub P2

Glass contamination remover and surface improvement paste.

- Effective in removing contamination.
- Does not break-down like melamine sponges.
- Proven formulation.
- Easy application.
- Water based.

CLS Code	Colour	Pack Size
CLS 138	White Paste	1Ltr bottle

Crossrub P2 in a windscreen application alongside Bond-Wipes (see pg 24)

Crossclean Glass Cleaner

Designed for the Automotive Glass Replacement market.

- Can work at extremely low temperatures.
- Non-smear and streak-free formula.
- Remove grease, dirt, dust, label and tape residues.

Traffic Film Remover

- Concentrated non-caustic formulation.
- Can be used with high pressure washers & similar equipment.
- Designed to remove the toughest soils (including stubborn dirt, oil and grease) from a variety of surfaces.
- Leaves a clean, streak free finish.

CLS Code	Pack Size
CLS 139	5Ltr
CLS 156	25Ltr

White Spirit

- White Spirit is a versatile solvent with widespread use in domestic, industrial, and professional applications
- Can be used in paint thinning, cleaning, degreasing, surface prep and general solvent use.

CLS Code	Pack Size
CLS 166	5Ltr
CLS 167	25Ltr

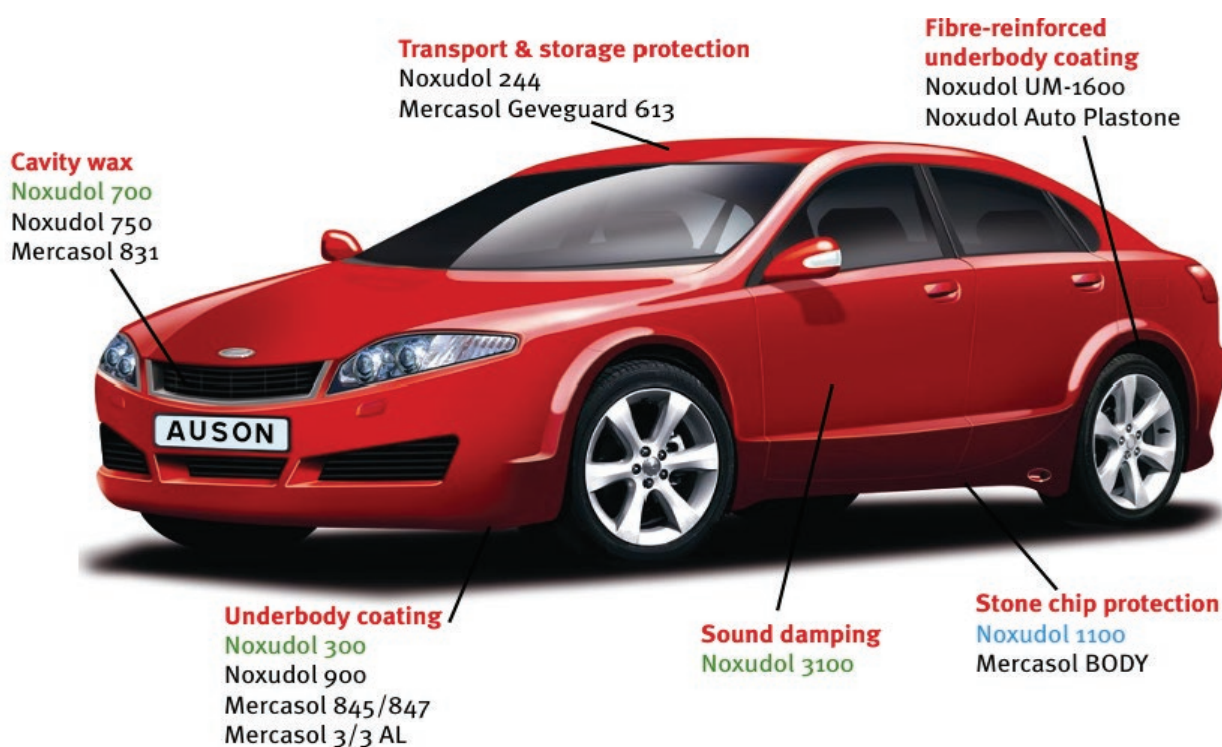

Underbody Coatings

As most car enthusiasts will know, car manufactures and owners have faced a recurring problem over the years.. that problem being Rust! That was until Auson came along.

We are proud to bring Auson's rust protection and sound deadening ranges to the UK Market. Damp roads, salted in winter make the UK a hot spot for rust. Auson is a family run company, just like us, but based in Sweden; where they too suffer with environmental challenges making their Nordic roads the perfect testing conditions.

Trusted by motor manufacturers and car owners, Auson has developed an extensive range of products for interior and exterior protection. From low-viscosity wax with exceptionally good penetration properties to long-lasting underbody coatings, stone chip protection and sound deadening compounds.

Aligning with Crosslink's green goals, Auson also offers a number of solvent-free products! These are offered both in the Rust protection and sound damping & thermal insulation ranges! Look out for the symbol below to show these products!

- Anti-corrosion wax entirely without solvents.
- Provides 3-4 times more penetration and better creepage for joints and cavities compared with conventional products.
- Primarily used for treatment of cavities in cars but it can also be used as underbody protection.
- This product can be applied to surfaces already showing signs of rust.
- It never dries completely but instead hardens to form a soft, moisture-repellent wax membrane.

Auson used at OEM's.

Mercasol 1

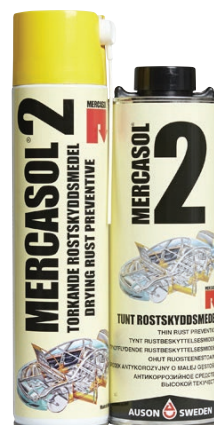

- Thin wax/oil-based rust protection product used for treatment of cavities and crevices when you want the best possible penetration into joints and flanges.
- A product giving excellent penetration with good corrosion protection properties.
- The wax forms a brown greasy, moisture-repellent film

Name	Pack Size
Mercasol 1	600ml
	1 Ltr
	5 Ltr

Mercasol 2

- Thin wax-based rust protection product that penetrates and repels moisture.
- This product has good anti-corrosion properties and forms a transparent, dry and waxy film.
- Ideal as complete corrosion protection for bonnets, engine compartments and boot lids or as protection for tools and equipment.

Name	Pack Size
Mercasol 2	600ml
	1 Ltr
	5 Ltr

Mercasol 831 ML

- A product giving good penetration, used for professional rust protection of cavities, flanges and joints.
- Approved for use on a number of car makes on the market, irrespective of the original rust protection.

Name	Pack Size
Mercasol 831 ML	20 Ltr
	60 Ltr
	208 Ltr
	1000 Ltr

Transparent ML

- A product giving good penetration, used for professional rust protection of cavities, flanges and joints.
- Approved for use on a number of car makes on the market, irrespective of the original rust protection.
- Provides discreet rust protection and contains fewer solvents.

Name	Pack Size
Transparent ML	60 Ltr
	208 Ltr

Noxudol 702

- Noxudol 702 is a solvent-free, dual-component anti-corrosion wax, based on rust inhibitors, liquid paraffins, and additives.
- The material forms a soft, vaseline-like rustproofing film.

Noxudol 720

- Noxudol 720 is a thixotropic, water-borne anti-corrosion wax that dries to form a soft, grease-like film.
- This product is manufactured according to customers' specific requirements for penetration and is drip-free 10 minutes after application.

Name	Pack Size
Noxudol 720	20 Ltr
	208 Ltr
	1000 Ltr

Noxudol 705-5

- Noxudol 705-5 is a solvent-free anti-corrosion wax.
- In order to achieve penetration, leveling and gelling, the object must be heated to a temperature of at least 70 °C.
- Once dry, it forms a soft, rust proofing film.

Name	Pack Size
Noxudol 705-5	208 Ltr
	1000 Ltr

Noxudol 244

- Noxudol 244 is a thin, water-borne rust protection product that dries to form a soft, grease-like film.
- Provides excellent rust protection for untreated steel surfaces.
- Easy to wash off even after lengthy periods of storage.

Name	Pack Size
Noxudol 244	20 Ltr
	208 Ltr

Noxudol 248

- Noxudol 248 is a thixotropic anti-corrosion fluid that dries to form a light brown, elastic and waxy surface, which feels neither tacky nor gummy.
- It also provides a degree of mechanical protection.
- Solvent-based.

Name	Pack Size
Noxudol 248	20 Ltr
	208 Ltr

Mercasol 827

- Eco-friendly rust protection product with low solvent content.
- This product is used as a professional interior rust protection treatment for cavities, doors, bonnets and panels
- High dry content and good anti-corrosion properties enable application of a thinner wet layer.

Name	Pack Size
Mercasol 827	60 Ltr
	208 Ltr

Geveguard 613

- Transparent wax in a solvent dispersion for use as transport and storage protection.
- This wax has good rustproofing properties and excellent adhesion.
- It also has a short drying time and the dispersion is free from aromatic solvents.

Name	Pack Size
Geveguard 613	20 Ltr
	208 Ltr

Transparent ND

- Mercasol Non-Drip Transparent is a solvent-borne, wax-based rust protection product that can be applied in thick layers.
- This product is used in industrial applications and for professional rust protection of visible surfaces and vehicle cavities.
- It provides good long-term anti-corrosion protection.

Name	Pack Size
Transparent ND	60 Ltr
	208 Ltr

Mercasol 917 ND

- A solvent-borne, transparent wax that can be applied in thick layers without running or dripping.
- This product is used for professional rust protection of visible surfaces and vehicle cavities.
- It provides good long-term anti-corrosion protection.

Name	Pack Size
Mercasol 917 ND	60 Ltr
	208 Ltr
	1000 Ltr

Noxudol 300

- A thick anti-corrosion wax that is free from solvents.
- Used as rust protection on car underbodies and forms a soft wax membrane.
- Has good creepage properties and dries slowly without cracking.
- Available in black, transparent and bronze.

Name	Pack Size
Black	500 ml
	1 Ltr
	20 Ltr
	60 Ltr
Bronze	208 Ltr
	20 Ltr
	60 Ltr
Transparent	208 Ltr

	60 Ltr

Noxudol 1100

- Water-based abrasion protection for car wheel arches and underbodies with excellent anti-corrosion properties.
- Has very good adhesive properties and is hard-wearing.
- Depending on the surface, the product is applied with a brush or a spray in an even layer to create a dry film approx. 0.2-0.5 mm thick.
- Noxudol 1100 can also be easily applied to damp surfaces.
- Can be painted over.

Name	Pack Size
Noxudol 1100	1 Ltr
	20 Ltr
	208 Ltr

Noxudol 900

- Viscous rust protection for car underbodies and wheel arches.
- High adhesion and water and moisture repellent.
- Effective against road salt.

Name	Pack Size
Black	500 ml

Noxudol UM-1600

- A thixotropic, fibre-reinforced product intended as abrasion and corrosion protection under mudguards, wheel arches and other underbody parts.
- This product comprises bitumen, waxes and low aromatic solvents.
- A thicker layer also produces a good sound damping effect.
- Can be painted over.

Name	Pack Size
Noxudol UM-1600	1 Ltr
	20 Ltr

Underbody coating used at a truck body builders.

Mercasol 3 & 3 AL

- Mercasol 3 and Mercasol 3 AL are two colour variants, black and bronze, of a thick, solvent-based anti-corrosion wax.
- Used on underbodies, wheel arches and similar parts.
- Forms a tough, wear-resistant wax layer that protects against rust.
- This product is heat-resistant and has good flexibility, even at low temperatures.

CLS Code & Name	Colour	Pack Size
Mercasol 3	Black	600 ml
	Black	1 Ltr
	Black	5 Ltr
Mercasol 3 AL	Bronze	600 ml
	Bronze	1 Ltr

Mercasol 845 & 845 AL

- Hard-wearing, solvent-borne underbody coating with very good anti-corrosion properties.
- This product forms a durable film that protects against stone chips.
- Used as a professional rust protection treatment for vehicle underbodies where a black or bronze surface is required.

CLS Code & Name	Colour	Pack Size
Mercasol 845	Black	20 Ltr

Auto-Plastone

- Rustproof, reinforced and rubberised paste for treatment of underbodies and wheel housing.
- Provides reliable abrasion protection and excellent sound damping.
- Largely unaffected by variations in temperature.
- Good adhesion when applied to surfaces previously treated with rust protection products.

Name	Pack Size
Auto-Plastone	1 Ltr
	5 Ltr

Mercasol 4

- Bitumen-based underbody compound for rust protection treatment of wheel arches and parts exposed to heavy wear.
- This product has a smooth consistency, can be applied in thick layers and is spreadable.
- Best applied with a spatula or coarse brush.

Name	Pack Size
Mercasol 4	1 Ltr

Mercasol 847 AL

- Hard-wearing, solvent-borne underbody coating with high dry content and good long-term anti-corrosion properties.
- This product is used as a professional interior rust protection treatment for cavities, doors, bonnets and panels.
- Can be applied in thick layers that provide effective protection against stone chips.

Name	Pack Size
Mercasol 847 AL	60 Ltr
	208 Ltr (with bag)
	1000 Ltr

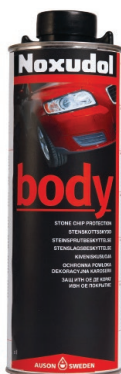

Mercasol 4S

- This thixotropic, fibre-reinforced product is intended as abrasion and corrosion protection under mudguards, wheel arches and other underbody parts.
- Based on bitumen, waxes and low-aromatic solvents.
- A thicker layer also produces a good sound damping effect.

Name	Pack Size
Mercasol 4S	1 Ltr

Noxudol Body

- Plastic-based, quick-drying abrasion protection that is ideal for visible vehicle parts.
- Produces a matt finish that can be painted over.
- Withstands waterborne degreasers.

Name	Pack Size
Noxudol Body	500ml
	1 Ltr

Action 4

- Universal oil that loosens and counteracts rust.
- Is water repellent and protects against moisture.
- Loosens deposits on all types of electrical contact.
- Thaws and lubricates frozen locks. Does not damage paint, plastic or rubber. Free from acid, sulphur and alkalis.

Name	Pack Size
Action 4	200ml

Mercasol 5

- Solvent-borne alkyd paint used as stone chip protection on car sills, panel edges, and front and rear panels.
- Produces a matt film that protects against sand and stone chips and withstands degreasers.
- Dampens sound and vibrations and is compatible with most car paints.

Name	Pack Size
Mercasol 5	600ml
	1 Ltr

Noxudol Zinc Spray

- Anti-corrosion primer for cars, boats and the home.
- Provides the same kind of rust protection as hot-dip galvanisation.
- Used to treat surfaces of iron and steel, welded seams, cut ends, and galvanised materials. Contains more than 90 % zinc.

Name	Pack Size
Noxudol Zinc	400ml

Auson offers complete pump equipment for various types of activity within the fields of rust protection and sound damping. Our range comprises high-quality products that are reliable and have a long service life. Spare parts and technical support are available.

Other Coatings

Professional Coating Systems

Over the years we have been asked to find a paint for our customers that not only is high quality but doesn't come with the high price tag!

Based in the UK, Mipa paint is the paint of choice for those looking for automotive paint, industrial coatings, defence coatings, aerosol paints, and wood coatings.

We are able to offer special mixes, spectro-matches and technical support for all our customers.

TOUGHOX[®]

The most durable 2K polyurethane structured coatings on the market. ToughOX 2 pack polyurethane paint is ideal for application to truck bed liners, heavy machinery, offshore fabrications, and other steel structures that require the ultimate corrosion protection from the elements.

Available in a Kit, 1 Ltr cans or aerosols. Tintable, black or white in colour.

Industries

- Truck Bed Liners.
- Bumpers
- Agricultural vehicle production & maintenance.
- Low bed trailer Manufacturers.
- Marine boat builders.
- Caravan producers.
- Skips.
- Heavy machinery.
- Recycling equipment.

Detailing and Body Repair

All In One Car Shampoo

Powerful cleaning with built-in wax protection for a glossy finish.

- Excellent cleaning power.
- Top wax protection included.
- Almost completely self drying.
- Brings gloss back.
- Biodegradable. Water-Based.
- Can be used by hand or high pressure cleaner.

CLS Code	Pack Size
CLS 733/CSH 05	5Ltr bottle

12 Ltr Bucket with Spout

Durable bucket with optional Anti-dirt grid.

CLS Code	Name
CLS 1050 / BUC 12	Bucket
CLS 342/BUI 12	Grid

Dry Wash

Clean & protect your car without water or rinsing.

- Lifts and encapsulates dirt particles; no scratching, not even on dirty surfaces.
- Twice as fast as normal washing; no water needed, no rinsing, no chammying.
- Fast and easy to apply; spray, spread out and buff.
- Streakless, water-repellent finish with a deep gloss.
- Silicone free; wax protection included
- Works best when using a microfiber cloth (MFS 40).

CLS Code	Pack Size
CLS 1232/DRW 05	5Ltr bottle

Soft Silicone Blade

Scratch-free removal of water after cleaning.

CLS Code	Name
WWB 00	Water blade

Spray Wax

Applied directly to the panel for added gloss and protection.

- Unique formula, never leaves traces, not even on windows.
- Also to be used on a wet washed car, to improve drying in combination with microfiber towels.
- Without any silicone content, to be safely used in the body shop.
- Helps remove holograms after polishing.
- Water-based product.

CLS Code	Pack Size
CLS 875/SPW 05	5Ltr bottle

Plastic Renewal Gel

Nourishes plastic, leather interiors

- Re-intensifying the colour leaving natural gloss.
- Easy application with hand foam pad POL 33.
- Water-based and silicon-free.

Plastic and Tyre Renovator

Long-lasting black shine on your tires with our Black Tyre Gel.

- Black tyre gel makes tyres deep black and leaves them shining for a very long time.
- Also suitable to refurbish non-painted plastic parts.
- Water-based and silicone free.
- Can be applied with the black tyre gel applicator sponge (BTS 12).

CLS Code	Pack Size
CLS 334/BTG 05	500ml bottle
CLS 596/BTS 12	1 pc

Soft Foam Pad

Soft open foam pad with handgrip

CLS Code	Name
CLS 1173/PRG 05	Renewal Gel 500ml
CLS 921/POL 33	Foam Pad

Clay Bar

Effortlessly eliminate bonded surface contaminants such as overspray, bug debris, road tar, rail dust, and fresh water spots.

- Restores a smooth, glossy finish.
- Prepares the paint for polishing or waxing.
- Non-abrasive and safe on clear-coat and single-stage paints, glass, metal and plastic.
- Comes in a plastic tub, fill tub with water & store bars in there to extend life span of your bar.
- For optimal results use with clean clay lubricant (CCL 10)

CLS Code	Pack Size
CLS 397/CCB 00	2 x 100g bar

Clay bar lubricant

- Specially formulated lubricant for easy and scratch-free claying, preparing surface for polishing or waxing.
- Lubricant for the clay process.
- Clay block glides easily over the surface.
- Does not cause scratches.
- Removes tree resin & bird droppings.

CLS Code	Pack Size
CCL 10	1Ltr Bottle

Clay Pad

Makes claying fast and easy!

- For fast and effortless removal of paint spray mist, resin, insect remains, old wax, etc.
- 15 cm diameter

CLS Code	Name
CLP 15	Clay pad
CLP 16	Velcro adaptor

Headlight Renewal Set

Brings headlights back to their original state in just a few easy steps!

- Avoid costly replacements
- Removes UV radiation, stone chips and yellowing
- Increases light output and car value
- Easy and cost effective: simply sand, degrease and spray

CLS Code	Pack Size
HRS 00	Kit

Green Microfiber Cloth

Super soft green microfiber cloths

- 5 Pcs 40 x 40cm

CLS Code	Pack Size
POL 40	5pcs

Grey Extra soft Cloth

Extra Soft microfiber cloths

- Perfect for polishing of dark surfaces
- 5 Pcs 40 x 40cm

CLS Code	Pack Size
MFS 40	4pcs

Large Drying Towel

Absorbs up to 7 times its weight in moisture.

- Generous size of 60cm x 90cm for drying an entire car.

CLS Code	Pack Size
TWL 00	1pc

Foam-It!

Water-based degreaser in an easy-to-use aerosol!

- Ammonia-free cleaner and degreaser removes dirt and grease effortlessly.
- Application: spray Foam it! and wipe off with a soft microfiber or non-woven cloth.
- Car exteriors (dry cleaning of painted parts, car wash without water) .Rim cleaner.
- Car interiors (plastic, leather, wood, metal, glass, dashboards, door panels, LCD screens)
- Kitchen and bathroom cleaner (anti-bacterial quality)
- Window cleaner, mirror cleaner, TV

CLS Code	Pack Size
TSP 600	500ml

Waterbased Degreaser

Removes all dirt, dust, swarf and grease from various surfaces including (old) paint layers, primers, rubbers, plastics and metals (steel, aluminum and galvanized pieces).

One-Step Polish

One product from start to finish!

- Nanotechnology-based paste offers fast polishing, brings back 95% gloss, stays wet longer.
- Can be used for different applications: removing dust, polishing spray zones, polishing contamination after sanding, bringing back gloss on old, mat paints, refurbishing headlights.
- Water-based .
- For used on fresh and weathered paints.
- Up to 50% time saving.

CLS Code	Pack Size
CLS 826/POL 10	1Ltr bottle

POL 10 used with Electric Polisher POP 55 (pg 101 or kit to the right) and POP 914 pad (pg 78) on a vehicle.

Two-Step Polish

Traditional two step system.

- Perfect to remove holograms and micro-scratches
- Water-based
- Safe to use on fresh paint
- No need for masks or gloves
- Easy to clean up, even on black parts

CLS Code	Name	Pack Size
CLS 648/POL 15	Step 1	1Ltr bottle
CLS 649/POL 16	Step 2	1Ltr bottle

Polishing Kit

- 1 electric polisher (POL 55, pg 101)
- 2 x white pads (POP 514, pg 78)
- 2 x one step polish
- 2 x black pads (POP 914, pg 78)
- 2 x red pads (POP 314, pg 78)
- 5 microfiber cloths (POL 40, pg 74)
- 2 x orange pads (POP 714, pg 78)

VERY SUITABLE

SUITABLE

GAPOL

Black universal polyester putty

- Universal adhesion on old painted surfaces, steel, light metals, galvanized steel, aluminium, wood and MDF
- Perfect to finish plastic repairs
- Visual aid during application (black shining filler); makes it easy to see all irregularities & imperfections
- Built-in sanding guide: during sanding the putty fades from black to dark grey
- The spots that are too low (not sanded) clearly remain black
- Once degreased, the filler regains its deep black colour; inspecting for possible irregularities is easy now.
- Built-in coating guide: whether one finishes with beige or grey filler, once the black colour is covered, one can also be sure of the necessary thickness of the filler coating.
- Built-in sanding through guide: if afterwards one would sand through the putty accidentally, the black base will occur as a sanding-through guide.

CLS Code	Pack Size
GAP 00	2KG

GAP 00 in application with Metal Spreader PPM 40 (pg 84)

Multi

Universal Filler

- Universal 2K polyester putty
- Maximum stability on vertical surfaces
- High filling power
- Fine grain composition
- No cracking on the edges by fine sanding
- Can be finished afterwards with FINE putty or directly with primer or filler.
- Less suited for light metals and galvanized bases.
- Colour: off white

CLS Code	Pack Size
GAP 10	2KG

Fine

Finishing Filler

- To be applied in thin and very thin coats
- High filling power
- Easy to apply and sand
- High elasticity
- To fill pin holes, small irregularities, small paint damages or scratches
- No sinking of the top coat
- Colour: white

CLS Code	Pack Size
GAP 20	2KG

Self Leveling**Ultra smooth finishing putty**

- Pinhole free self leveling ability
- To finish off any other polyester for final scratch removal or pinholes
- Easy to sand

CLS Code	Pack Size
GAP 25	1Ltr bottle

Ultra Light**Ultralight universal filler**

- Good adhesion to a variety of substrates such as steel, E-coat, galvanized steel, glass fiber, reinforced plastics (GFK) and wood
- Extra creamy for easy mixing & application
- Ultralight for easier and faster sanding & finer finishing
- No pinholes

CLS Code	Pack Size
GAP 31	1 KG

Light**Universal light putty**

- Extreme adhesion on metal surfaces
- High stability in the tin
- Low shrinkage ratio
- Vibration-resistant and more flexible on thin metal
- Combines excellent sanding properties, with an absolutely compact surface
- Easy sanding
- Short drying time

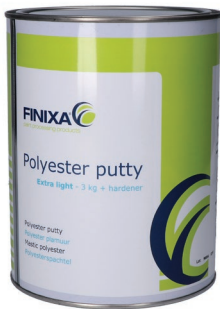

CLS Code	Pack Size
GAP 30	1.5 KG

GAP 30 in application

Extra Light

Universal extra light finishing putty

- Good adhesion on metal surfaces
- Low shrinkage ratio
- With pvc microbeads as filling material
- Same applications as "MULTI" putty but results in the same fine finish as "FINE" putty finishes with beige or grey filler, once the black colour is covered, one can also be sure of the necessary thickness of the filler coating.
- Built-in sanding through guide: if afterwards one would sand through the putty accidentally, the black base will occur as a sanding-through guide.

CLS Code	Pack Size
GAP 33	3 KG

Aluminium

Filler with Aluminium Particles

- Used to fill coarse irregularities, pores and holes
- Good adhesion on iron, steel, aluminum, galvanized substrates and glass fiber reinforced materials
- Good stability on vertical surfaces
- Can withstand temperatures of more than 90°C
- High elasticity, Good sandability

CLS Code	Pack Size
GAP 50	2 KG

Fiber

Universal polyester putty with glass fibres to fill up larger surfaces and bigger irregularities

- Impregnated fibres for easy and equal spreading and finishing
- Perfect for polyester applications and repairs
- For bridging of cracks, small holes and rusted-through areas
- Waterproof; ideal for boat & marine repairs
- Good adhesion on glass fibre reinforced materials
- High stability
- Limited sandability

CLS Code	Pack Size
GAP 40	1.8 KG

GAP 31 (pg 81) in application using plastic spreader PPM 25 (pg 84)

Plastfill

Light putty specially designed for plastic surfaces

- Very high flexibility
- Smooth finishing
- Fast & easy sanding
- Can also be used on fiberglass
- Built-in sanding guide: during sanding the putty fades from dark grey to light grey

CLS Code	Pack Size
GAP 70	1 KG

Lead & Tin Replacer

Can be used as an alternative to fluid tin

- Exceptional hardness
- Flaky composition lends the product a very high degree of flexibility
- Once fully cured, it resists hydrocarbons (gasoline, diesel fuel) and some acids (battery acid)
- Reshaping of rough edges, wheel casings, doors and roof. Perfect for repairing light alloy wheels

CLS Code	Pack Size
DEB 12	1.5 KG

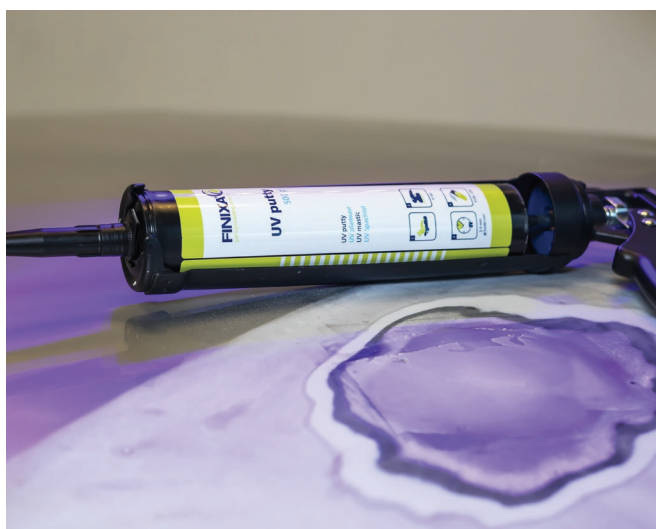

Light & Easy

Easy to sand light filler

- Very smooth finish
- Pinhole-free due to self-leveling ability
- Ideal for spot and smart repair
- No finishing putty needed afterward
- Universal adhesion
- Much lower viscosity compared to GAP 30

CLS Code	Pack Size
GAP 93	3.8 KG

GAP 80 (pg 84) in application using the Metal Spreader PPM 40 (pg 84) and UV Lamp UVL 00 (pg 102)

Universal UV putty

- Chemically stable after curing; no marks, does not sink and does not shrink
- Can be used on most metal surfaces
- Convenient tube; pump directly onto your putty knife,
- No mixing necessary - no air entrapment due to mixing
- Unlimited shelf life
- Dries in 2-5 minutes, depending on the layer thickness. Drying times are not influenced by temperature or air humidity
- Can be sanded immediately after drying (no cooling time)
- Easy to sand

CLS Code	Pack Size
GAP 80	500 gr

Mixing Boards

Multi-layered mixing palette board prevents pin holes during putty application, easy cleanup.

Plastic Spreaders

Plastic disposable spreaders
Dimensions: 116mm x 78mm

Rubber Spreaders

Flexible rubber spreaders with soft finish

Metal Spreaders

Flexible metal spreaders

One set is made up of 4 different widths: 50mm, 80mm, 100mm and 120mm

CLS Code	Item	Pack Size
GAP 60	Mixing Board	100 sheets
PPM 25	Plastic Spreaders	25pcs
PPM 40	Rubber Spreaders	20pcs
PPM 20	Metal Spreaders	4pcs

Masking

Premium Masking Film

Paint absorbing premium film

- Good static masking film that holds paint on the exterior of the film, it also has a special layer on the inside of the film that absorbs humidity from the car. This avoids white spots after spraying.
- Excellent paint absorbing on the exterior side (logo side).
- Easily cut.
- Statically loaded: can be applied by 1 person.

CLS Code	Size
MSF 36010	6m x 100m

Pre-taped Masking Film

Easy to tear static masking film with masking tape.

- Corona treated for optimum paint absorption.

MSF 14820 in application using PLA 49 (pg 88)

Seat covers on a roll

For protection of the seat upholstery

- White transparent.
- Dimensions: 820mm x 1300mm x 500mm.

CLS Code	Pack Size
PLA 62	250pcs on a roll

Logo Tape

Adhesive transfer for refixing logos

- Clean surface and logo with degreaser, remove cover strip, press the logo down on the adhesive transfer for several seconds and remove adhesive transfer.
- The logo now has enough adhesive in all the right places to be attached permanently to the body work.

CLS Code	Pack Size
FOL 62	50mm x 300mm. 10pcs

Rim masking film

Paint & Repair rims without removing the tyre

- HDPE tyre cover with elastic cord
- Corona-treated for good paint absorption
- Can be used on rims from 13 to 22 inch

CLS Code	Pack Size
TMF 81	4 x 20pcs

Wheel Covers

Protect tyre & wheel

- Transparent, disposable wheel cover
- Thickness 20µm
- Size: 70cm x 34.5cm x 90cm

CLS Code	Pack Size
PLA 81	250pcs

Cover Sets

Cover set for car interiors

- Includes: one seat cover, one footmat, one steering wheel cover, one gear shift lever cover and one hand break cover.
- Easy in handling as there is 1 set per job.
- Strong white plastic film.

CLS Code	Pack Size
COP 05	100pcs

Parking Sensor masking

Fastest and safest way to mask integrated parking sensors

- No need to dismount the parking sensors.
- Provides protection against potential damage from sanding, painting and polishing.
- Clean and easy removal due to lifting tabs.
- No adhesive residue.
- Great for masking door keyholes.
- Remove while clearcoat is wet to avoid lacquer bridging.

CLS Code	Pack Size
PSM 17	60pcs

Cutter

Film cutter with a fixed blade.

- The blade can never come into contact with the bodywork, no risk of damages
- Available as magnetic or non-magnetic

Premium Cutter

Film cutter with replaceable razor blade

- The blade can never come into contact with the bodywork, no risk of damages

Cutter Knife

- Standard 9mm replaceable blade
- Sliding knob with lock system
- Includes pocket clip

CLS Code	Item	Pack Size

Masking Tape Green

Heat resistant for 10 minutes at 120°C, 30 minutes at 90°C

- Entirely saturated masking tape of high adhesive strength.
- Can be used with all water- and solvent-based paints.
- Easily removable.
- Excellent adhesion on most surfaces.
- Solvent- & water-resistant.
- Suited for IR and UV drying.
- Thickness: 0,130mm.
- Adhesive strength on steel: 4,8 N/25mm.

Spon Tape

Versatile foam tape for joint protection

- Ultra-versatile: Perfect for sealing panel gaps and creating flawless fade-out zones during spot repairs.
- Precision adjustment after placement: Apply to the door or moving part, then fine-tune placement after closing, no misalignment.
- Ideal for hard to reach places: Flexible oval shape fits tricky contours and tight spaces with ease.
- Soft-edge transitions: Asymmetrical adhesive creates seamless blends without harsh tape lines.

CLS Code	Shape	Size
SPT 05	Oval	15mm x 25m
SPT 13	Round	13mm x 50m
SPT 17	Round	17mm x 40m
SPT 20	Oval	20mm x 50m
SPT 25	Oval	25mm x 37m

Joint Stopper

Easiest and fastest way to mask door apertures

- Seals and protects jambs from overspray.
- No primer build-up on panel edges.
- Precise fingertip adjustment.
- Unique 8-shape, stays fixed during spraying.
- Easy to remove, no glue.
- Remove while the primer is still wet to obtain a soft feathered edge.
- Reduces process times to a minimum.

CLS Code	Shape	Size

JST 22	Figure of 8	22mm x 25m

Spraybooth Maintenance

Dust Control

Suppresses dust circulation in spraybooths & workshops

- Biodegradable.
- Number of layers (min-max): 1/1.
- Coverage: 80m² / L.
- Drying time: 15 min.
- Removal: not applicable, the product works 7-14 days.
- Waterbased product.

CLS Code	Pack Size
DUC 05	5Ltrs
DUC 10	10Ltrs
DUC 25	25Ltrs

Pressure Sprayer

- Designed for dust control application.
- 5l manual pressure sprayer with shoulder strap.
- Adjustable spray nozzle, trigger lock.
- Pressure release valve.

CLS Code	Pack Size
DUC 50	Sprayer

Cabin Protect Peelable

White, peelable coating for the protection of spraybooth walls against overspray.

- Apply with a spraygun (2.5) in 2 to 3 coats.
- After contamination, it is best to put an extra coat on and repeat, this will save time and makes it easier to peel off the coating in one piece once it has reached a certain thickness.
- Biodegradable.
- Number of layers (min-max): 2-15
- Coverage: ±5,5m²/L/layer
- Drying time: 15 min. 60°
- Removal: peeling.
- Water-based product.

CLS Code	Pack Size
CPP 17	17Ltrs

CPP 17 being applied via spray gun.

Spray Booth Clean

Biodegradable paint stripper

- Water-based.
- VOC-compliant.
- Apply the product with a brush or roll, let it rest for 5 to 15 minutes and then remove with a rag or pressure washer
- Rinse with water.
- Warning: always test on a small surface first.
- Wear eye or face protection, gloves and A1 mask.
- This paint stripper is based on microorganisms that break down the paint. Because of this, it is advised to let the product sit for about 15-20 minutes to get the best result.

CLS Code	Pack Size
CBC 50	5Ltr

CBC 50 in use.

Spray Booth Protect Pro

Transparent, tacky and washable coating for the protection of spraybooth walls against overspray.

- Product stays tacky in order to hold on to swirling dust.
- Apply one thick layer by means of a pressure tank, airmix in 1 thick layer.
- Remove afterwards with water and sponge.
- Biodegradable.
- Remove or apply another coat when the product is no longer tacky.
- Average consumption per spraybooth: 12L.
- Depending on temperature and humidity, the product will stay tacky for 10-12 weeks.
- Number of layers (min-max): 1/3
- Coverage: 10m²/L/layer
- Can be applied over 2 dried layers of powerpeel for easy removal.

CLS Code	Pack Size
CBP 05	5Ltr
CBP 10	10Ltr
CBP 25	25Ltr

Spray Booth Protect Performance

Transparent, tacky and washable coating for the protection of spraybooth walls against overspray.

- Product stays tacky in order to hold on to swirling dust.
- Apply with spray gun (2.5) in two or three coats. The thicker the total coat, the longer it stays active. Applying another coat after some time will re-activate the product.
- Remove afterwards with water and sponge.
- Biodegradable.
- Remove or apply another coat when the product is no longer tacky.
- Average consumption per spraybooth: 15L.
- Depending on temperature and humidity, product will stay tacky for 6 - 8 weeks.
- Can be applied over 2 dried layers of powerpeel for easy removal.
- Number of layers (min-max): 2/4.

CLS Code	Pack Size
CBP 05P	5Ltr
CBP 10P	10Ltr
CBP 25P	25Ltr

Spray Booth Protect Pro

Easy peelable coating for the protection of spray booth walls against overspray.

- Available in white and transparent.
- Apply with a spray gun (2.5mm nozzle) in only 1 coat. (We suggest using our SPG 80+81).
- Bidon of 5L fits perfectly in SPG 80. Water-based product.
- Easy to remove with water when it's liquid.
- When dried, powerpeel can't be removed with water. This makes it possible to apply a coating from our CBP (active for 10-12 weeks). When the CBP has dried up, peel both layers off at once.
- Effortlessly protect your spray cabin walls with our peelable coating.

CLS Code	Colour	Pack Size
PWP 05T	Transparent	5Ltr
PWP 05W	White	5Ltr

Liquid Masking

Same performance as CBP but dries completely.

CLS Code	Pack Size
CLM 05	5Ltr

Self-Adhesive film

White polypropylene adhesive film, designed to protect any kind of surface from chemical products.

- To protect mixing tables and floors from getting contaminated by overspray, paint spill, oil, etc.
- Skid proof, even wet, due to grain particles in the film
- Acrylic adhesive layer
- Clean removal, no residue up to 10 days
- White colour for optimal light reflection
- Good dimensional stability and flatness
- Low electrostatic charge

CLS Code	Size
PRF 600	60cm x 25m
PRF 1200	120cm x 25m

Cabine protect tape

All-purpose white duct tape to seal the seams. 50mm x 50m.

CLS Code	Name	Size
CPT 50	Cabine tape	50mm x 50m
PWP 05W	Plastic for booth	5Ltr
CPF 10	Lighting Film	400mm x 50m
CPF 11	Lighting Film	600mm x 100m
PLA 45	Magnetic strip	100cm

Plastic for Spray booth

Static and paint absorbent white film

- Cut to size in order to be used to protect spraybooth walls against overspray.
- Unique folding film for easy and fast application.
- Easy to remove.

Lighting Protection Film

A high-tack transparent masking film for interior and exterior use with a water-based acrylic adhesive and a U.V. inhibitor.

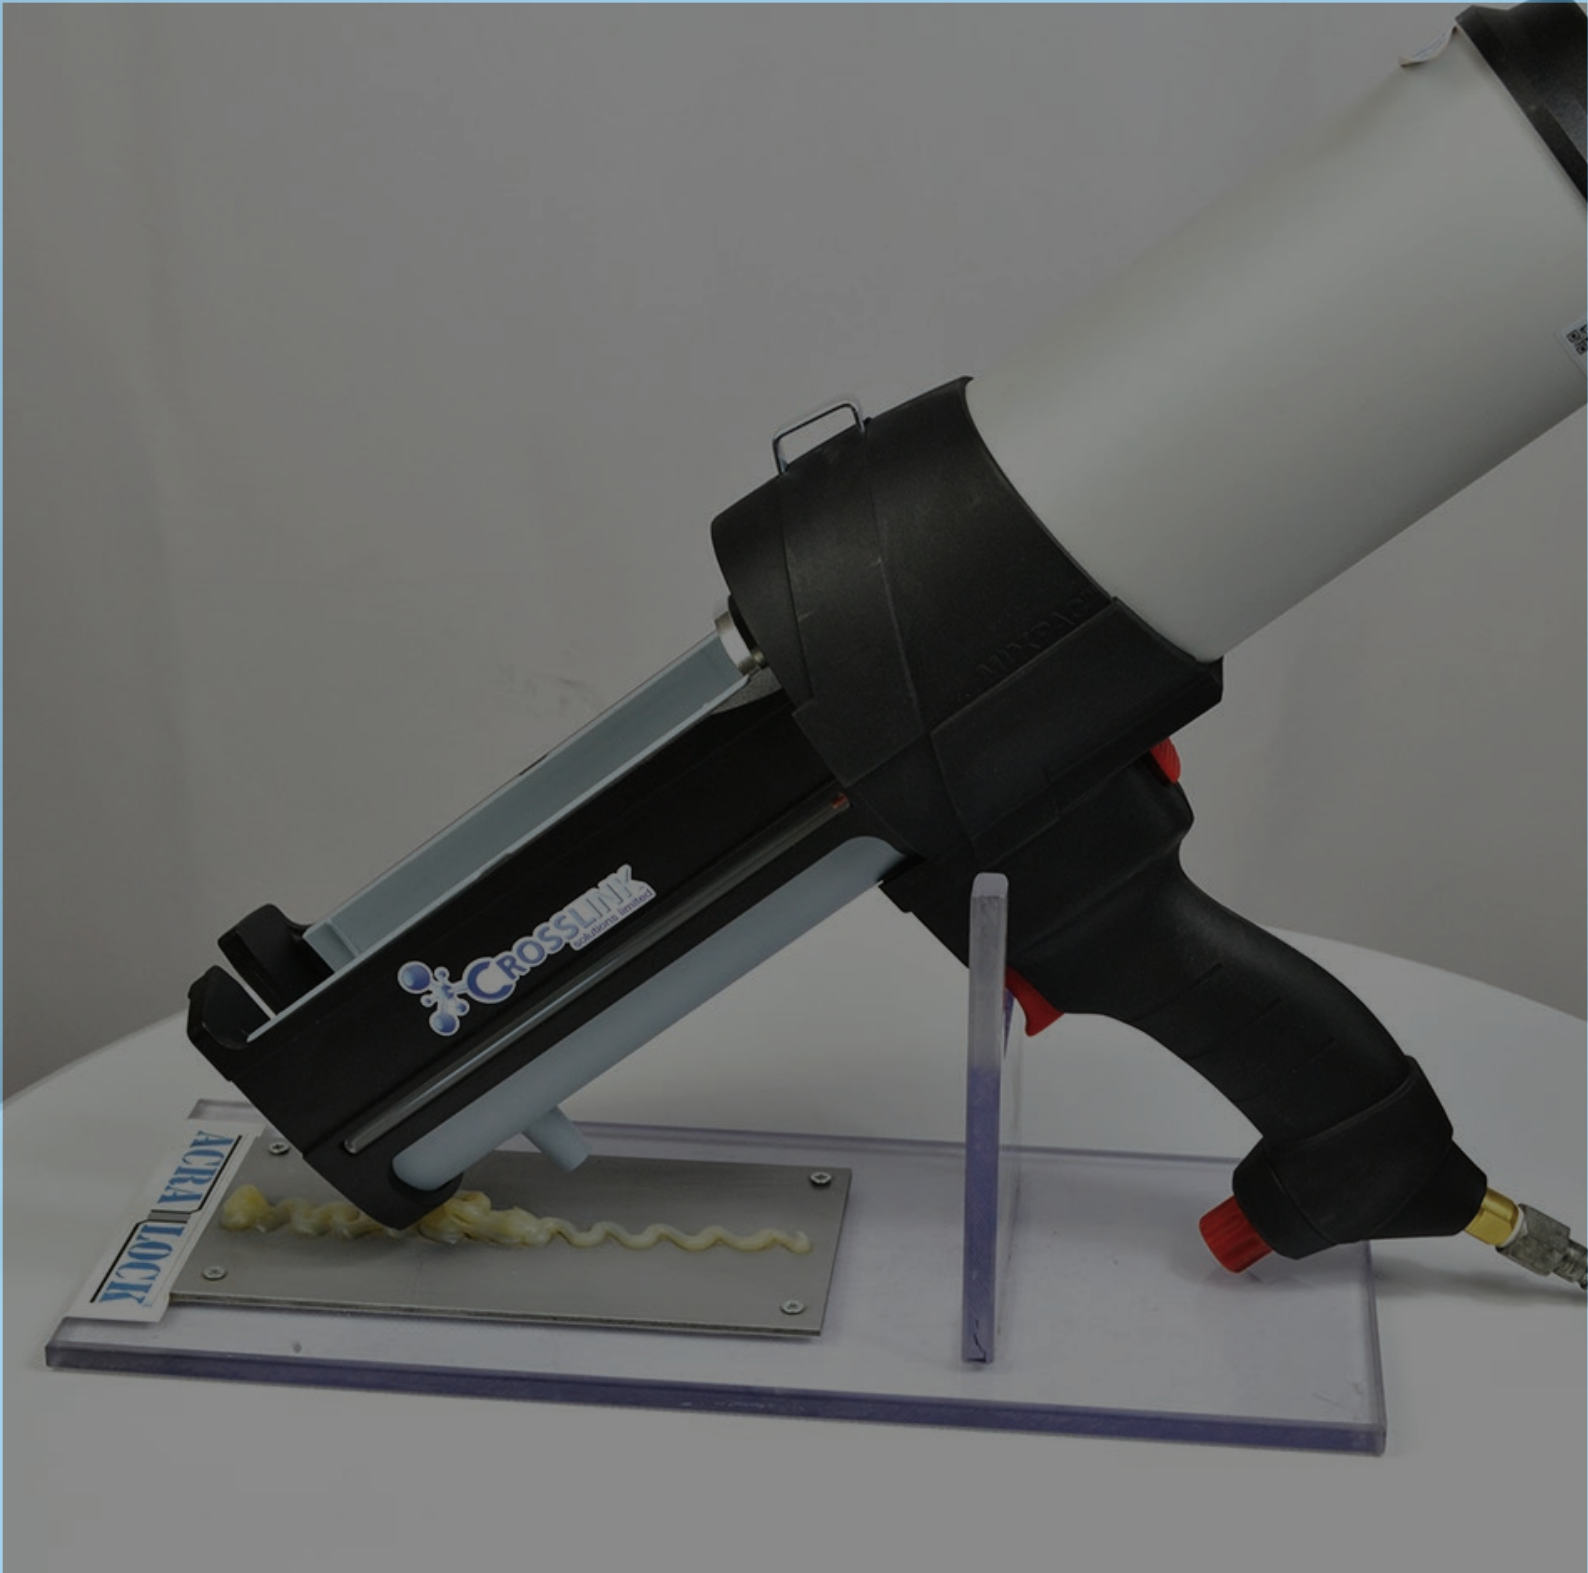

- Transparent adhesive film to protect the lighting fixtures inside a spraybooth with a minimum loss of lighting intensity.
- Does not leave glue residue after removal.
- Can also be used to cover broken wind shields.

Magnetic Strip

100cm, cutable strip

Equipment

**NEW 6000 series**

- Setting a new world standard for compact power.
- Smaller and lighter than leading competitor.
- Class leading output force.
- Ergonomic handle design decreases wrist strain by 10%.
- Designed for both 1K and 2K dispensing.
- 20 volt lil-ion battery.

Powerpush 5026

- Development & built in the USA.
- OEM relationships with major adhesive formulators and tool manufacturers.
- Higher output drive, specially designed for high viscosity adhesives and subzero climates.
- One finger speed dial adjustment.
- Advanced gearing system: developing >800 lbs output force.
- Auto retract: To eliminate back pressure build up and adhesive flow.
- Over-mold ergonomic comfort grip.
- Variable speed trigger design.
- Clear 'non friction' barrel system.
- Non bag wrap designed waste saving piston.
- 14.4 volt long lasting battery.
- World fast-charge 1 hour Charger.

**Available for different sausage
and cartridge sizes.**

Spare parts are available.

**If required, manual and pneumatic
sausage dispensers are available.**

Powerpush 5026 on glazing section at a vehicle production.

Manual Dispenser

- Available for 10:1 50ml cartridge, 1:1 400ml cartridge and a 10:1 490ml cartridge.
- Perfect for Acralock structural adhesive pg 11.

Pneumatic Dispenser

- Available for 10:1 50ml cartridge, 1:1 400ml cartridge and a 10:1 490ml cartridge.
- Perfect for Acralock structural adhesive pg 11.

Refill Dispenser & Station

- Refill dispenser is perfect for large or small applications.
- Pneumatic.
- 10:1 or 1:1 material.
- Refill station to the right.

Spare parts are available.

Pneumatic Sander

Standard ergonomic eccentric sanding machine.

- Low noise level.
- Perfectly balanced centre of gravity.
- Low vibration.
- Delivered with sanding pad: diameter 150mm, bottom hook & loop, 15 holes.
- SAM 00: available with 2,5mm deviation, for finishing work, P400 to P3000.
- SAM 01: available with 5,0mm deviation, for preparation work, P40 to P360.
- Built-in speed control, can be adjusted continuously between 0 - 20 000 rpm.
- Extremely light: 660g including sanding pad.
- Built-in option to work with or without dust extraction.

CLS Code	Deviation
SAM 00	2.5mm
SAM 01	5mm

Premium Pneumatic Sander

Premium ergonomic eccentric sanding machine.

- Very low noise level.
- Perfectly balanced centre of gravity.
- Vibration-free.
- Delivered with sanding pad: diameter 150mm, bottom hook & loop, 15 holes.
- Available with 2,5mm deviation, for finishing work, P400 to P3000.
- Available with 5,0mm deviation, for preparation work, P40 to P360.
- Built-in speed control, can be adjusted continuously between 0 - 20 000 rpm.
- Very light: 790g including sanding pad.
- Built-in option to work with or without dust extraction.

CLS Code	Deviation
SAM 50	2.5mm
SAM 51	5mm

Eccentric Palm Sander

Pneumatic Palm Sander

- 75mm/3 inch - 2.5mm orbital palm sander
- Ergonomic grip provides greater operator, comfort and control
- Built-in regulator for accurate speed control
- Muffling system to reduce sound level
- Pad Size: 3" (76mm)
- Spindle Thread: 5/16"-24
- Orbit: 2.5mm
- Free Speed: 13,000 rpm

CLS Code	Deviation
SAM 02	2.5mm

SAM 02 in application.

Mini Sander with Vacuum

Mini 75mm sander with vacuum.

- 75mm/3 inch - 2.5mm orbital, pneumatic palm sander with central vacuum.
- Premium ergonomic eccentric sanding machine.
- Perfectly balanced centre of gravity.
- Low vibration.
- Delivered with sanding pad: diameter 75 mm, medium density, bottom velcro, 3 holes.
- Built-in speed control, can be adjusted continuously between 0 - 20 000 RPM.
- Very light: 570g including sanding pad.
- Built-in option to work with or without dust extraction.

CLS Code	Deviation
SAM 41	2.5mm

Electric polish machine

- 1050W.
- 2:1 transmission - high torque at low RPM.
- Improved cooling-ventilation system.
- Adjustable from 700 up to 2500 RPM.
- Very lightweight (2,6 kg): easy and comfortable handling.
- 5m cable.
- Including backing pad (POL 56), side handle and spare carbon brushes.

CLS Code	Name
POL 55	Polish Machine
POL 62	Polishing Kit pg 77

Electric Polisher POP 55 (kit pg 77) in application with One-Step Polish POL 10 (pg 77) and POP 914 pad (pg 78) on a vehicle.

Electric polish machine-
Heavy Duty

- 1500W.
- 2:1 transmission: high torque at low RPM.
- Adjustable from 700 up to 2500 RPM.
- Cooling-ventilation system.
- Weight: 3,7kg.
- Easy and comfortable handling.
- 5m cable.
- Including a backing pad, side handle and carbon brushes.

CLS Code	Name
POL 80	HD Machine

Pneumatic polish machine

- Adjustable speed from 1200 up to 2400 RPM.
- Weight: 0,7kg.
- Work pressure: 6.2 Bar (90psi).
- Including a side handle.
- The backing pad is not included.

CLS Code	Name
POL 50	Pneumatic Machine

UV Curing Lamp

Super-fast curing times.

- Powerful irradiance with maximum UV-A intensity of 55 $\mu\text{W}/\text{cm}^2$ at 20cm.
- Successfully tested on UV paint products from all major paint manufacturers.
- Only emits UV-A (395nm) and does not emit UV-B or UV-C.
- Active built-in cooling system keeps the lamp cooler in order to maintain optimum light output during extended use.
- Ultrasonic distance control.
- LCD control display.
- Wall-mounted charging station provides a convenient recharging process and better organized workplace.

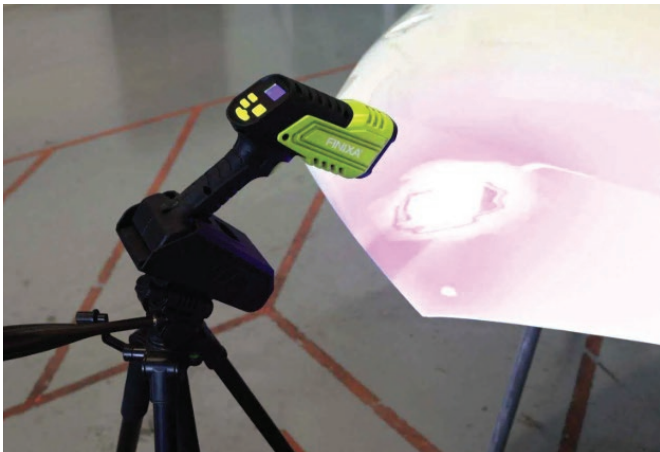

CLS Code	Name
UVL 00	Lamp

Tri-pod for UV Lamp

- Accessory for UVL 00.
- Handy tripod for longer exposures.

CLS Code	Name
UVL 01	Tripod

UVL 00 & UVL 01 curing GAP 80 (pg 84)

Windscreen Racks

- Heavy Duty Windscreen rack.
- Available with castors for workshop or without for vans.

CLS Code	Fits
CLS 1305	4 Windscreens
CLS 1206	5 Windscreens

Butterfly Trestle

- Perfect for workshops & glass replacement.
- 114cm.

Spare Part Cart

- 2100x650x900mm.
- 230kg max.

Wheel & Panel Stand

- Removable wheel supports so the stand can be used for larger panels such as bonnets - horizontal supports are foam-cushioned for safety.
- Packed: 91cm x 70cm x 15cm
- Weight: 27kg

Mini Spray Gun PRO

- LVLP technology: over 74% effective transfer efficiency
- Specifically developed for spot repair
- Lightweight anodized aluminium body, ergonomic grip
- 100% stainless steel fluid passages, no rubber parts in the design
- Fine atomization, adjustable spray pattern
- Required air feed pressure: 1.5 bar
- Standard with a 0.8mm needle. Needles 0.8mm, 1.0mm, 1.2mm also available separately.
- Incl.cup 100 ml

CLS Code	Name
SPG 700	Mini Spray gun PRO

High transfer spray gun

- Premium in-house developed gravity feed spray gun that meets all VOC regulations.
- The gun is available with nozzles 1,2 mm, 1,3 mm, 1,4 mm, 1,5 mm and 1,8 mm.
- Finest atomisation at 1.0-1.3 bar, resulting in high paint transfer with very low spray mist.
- High performance durable design
- Lightweight aluminum body.
- 100% stainless steel fluid passages.
- No rubber parts in the design
- Ergonomic grip.

CLS Code	Name
SPG 800	Matte (Basecoat)
SPG 900	Gloss (clearcoat)
